# Explanation

---

## 1. Consideration of a Property Tax Rebate Program for Single-Family, Owner-Occupied Homes (Patrick Burke, Economic Development Manager)

**Explanation:** In an effort to encourage homeowners to invest in Moline's older neighborhoods and to encourage landmarking of homes, the Moline Historic Preservation Commission has proposed a pilot property tax rebate program for homes that are at least 50 years old. The City would rebate 100% of the City's portion of the property tax providing that the homeowner invests at least \$20,000 into the project. The maximum rebate would be \$5,000 over a five year period. The residence also must be single-family and owner-occupied.

**Staff Recommendation:** Concurs with the Historic Preservation Commission  
**Fiscal Impact:** The City would rebate its portion of the property tax for each project  
**Public Notice/Recording:** N/A  
**Goals Impacted:** Quality Neighborhoods, Desirable Place to Live

---

## 2. Request from the City of Moline for a Licensing Agreement with properties utilizing the trash corral located on City-owned property at 1402 4<sup>th</sup> Avenue/Parking Lot U. (Pam Owens, Main Street Program Coordinator)

**Explanation:** The corrals in Parking Lot U were constructed by the City of Moline at an approximate cost of \$20,000. These corrals are located on City property utilizing 10 prime parking spaces. Property owners are not charged for the privilege of keeping their dumpsters on property that is owned and maintained by the City of Moline. Cleanliness and care of the area in and around the corrals has been an ongoing concern. City health and safety codes are often in violation. These codes are impossible to enforce due the inability of code enforcement officials to discern responsibility. The City will designate and assign well-marked spaces to each property owner utilizing the trash corrals. In return, each property owner will sign a licensing agreement outlining the responsibility of the property owner who chooses to utilize the designated dumpster spaces on City property. The utilization of the trash corrals will remain free of charge to the property owners.

**Staff Recommendation:** Approval  
**Fiscal Impact:** No fiscal impact to City  
**Public Notice/Recording:** N/A  
**Goal Impacted:** Quality Neighborhoods & Vibrant Downtown

---

## 3. Declaration of various items of antiquated and unusable data radios and in-car computers and screens as surplus property and authorizing the Finance Director to dispose of same. (Kim Hankins, Interim Public Safety Director)

**Explanation:** The data radios and computers were originally purchased in conjunction with a 1996 COPS More federal grant award and were replaced in the police vehicles several years ago. Both the technology and the units are antiquated and have no monetary or usable value. Staff is requesting that the equipment be declared as surplus and its disposal authorized. The equipment is detailed on the attached Exhibit A.

**Staff Recommendation:** Approval  
**Fiscal Impact:** N/A  
**Public Notice/Recording:** N/A  
**Goal Impacted:** None identified

#### 4. Utility Billing Presentment Services. (Greg Swanson, Utilities General Manager)

**Explanation:** The City issues utility bills to Moline property owners on a quarterly basis. Currently, these utility bills are printed by Water Division personnel, and then they are mailed to customers using presentment services provided by a local vendor. In an effort to identify potential cost savings and improved efficiencies, staff issued a Request for Proposals (RFP) seeking proposals from qualified vendors capable of providing specified presentment services, including utility bill printing. Eleven vendors responded to this RFP and submitted proposals containing a variety of cost and logistical data, along with vendor background information. These proposals were evaluated based on the following criteria:

- Vendor's experience, capacity and capability to provide the required printing and mailing services in a professional, timely, reliable and secure manner.
- Vendor's understanding of the City's technical requirements and demonstrated ability to meet or exceed the same.
- The cost of providing the required printing and mailing services.
- Ability to meet the anticipated project schedule and interact productively with City staff and SunGard Public Sector NaviLine representatives, as required.
- Information obtained through reference checks.

The proposals were evaluated by a committee consisting of Finance and Water personnel. The evaluation process determined that the proposal submitted by Cash Cycle Solutions Inc. (CCS) best meets the City's requirements and will serve to reduce the City's utility billing costs. Unique features of CCS services include the use of Mail Manager, CCS's secure, real-time, collaborative software platform that will allow City staff to initiate and track print jobs and CCS's use of Detached Mail Units (DMU), which serves to enhance the efficiency and expediency of postal processing.

If approved, the initial contract with CCS will be three years in duration, with an option to renew annually for three subsequent years. City staff will work with CCS to refine the layout and content of City utility bills prior to initiation of CCS based printing and processing. Acceptance of CCS's proposal will yield an estimated annual savings of \$17,200.00, at current postal rates. Additionally, acceptance of CCS's proposal will eliminate the need for nearly all in-house printing of utility bills. This change will free up an estimated 100 annual man-hours, which will be reallocated to complete refined account, revenue and usage analyses and quality control reports. Additional documentation attached.

**Staff Recommendation:** Staff recommends acceptance of the utility billing presentment services proposal from Cash Cycle Solution Inc., with an anticipated annual cost of \$36,500.00

**Fiscal Impact:** The current annual budget allocation for utility billing presentment expenditures is \$53,700.00.

**Public Notice/Recording:** N/A

**Goals Impacted:** Financially Strong City      Leader in Customer Service

## **CITY OF MOLINE SINGLE FAMILY HISTORIC HOME TAX REBATE**

The City Council enacted a Historic Preservation Ordinance in 1991 to strengthen the economy of the city by stabilizing and improving property values in historic neighborhoods, to foster civic pride and promote the aesthetics of the community. The Historic Preservation Commission has determined that an appropriate means by which to encourage the rehabilitation of older owner occupied homes is for the City to rebate 100% of the City's portion of the property's annual property tax bill over a period of five years following a \$20,000 or more rehabilitation.

### **PROGRAM GUIDELINES:**

Owner-occupied single family homes may qualify for the tax rebate program providing they are fifty years or older.

For those homeowners who are interested in pursuing landmark status, the Commission will assist them in adhering to Secretary of the Interior's Standards for Rehabilitation to ensure compatibility in form, mass, materials and scale. As per city ordinance, any exterior work to a locally landmarked property requiring a building permit must be reviewed by the City's Historic Preservation Commission.

The homeowner must invest a minimum of \$20,000 into improving the home to be considered for the rebate. Building materials for both interior and exterior work qualify. In order for labor expenses to qualify, the project must be completed by a licensed third party professional and the labor expense must not exceed 75% of the total project cost. Mechanical items such as a new furnace, air-conditioner, hot water heater, washer, dryer and kitchen appliances are excluded from consideration.

Before work on the project begins, the homeowner will need to receive pre-approval from the Moline Historic Preservation Commission. The Commission's recommendation would then be forwarded to the City Council for final approval or denial before work could begin. Upon completion, a final inspection will be conducted by staff or a designated Commission member to ensure the project was completed according to the application.

### **Qualifying Tax Credit Amount**

Upon completion of a project, the City will rebate 100% of the city's portion of the property tax which is approximately 22% of the homeowner's property tax bill, for the next consecutive five years to a maximum total amount of \$5,000.

### **Length of Program**

This five year pilot program will expire December 31, 2017. Homeowners must submit applications to the city's Planning & Development Department prior to June 1, 2017. All work must be completed by December 31, 2017. Each qualified project would be eligible for one rebate during the pilot program.

### **Property Tax Rebate Termination**

Any such property tax rebate shall be terminated should the applicant cease to reside at the subject property. In such an event, the final property tax rebate payment due from the City only would apply to the last full calendar year in which the applicant resided in the subject property.

### **Program Rebate Examples**

The potential rebate for a home with a market value of \$94,000 would be approximately \$618 per year.  
The potential rebate for a home with a market value of \$99,000 would be approximately \$654 per year.  
The potential rebate for a home with a market value of \$134,000 would be approximately \$879 per year.  
In order to receive the \$1,000 maximum rebate per year, the market value of the home would have to be \$153,000 or greater.
