**PHASE I
ENVIRONMENTAL SITE ASSESSMENT REPORT**

**Fraternal Order of Eagles
1404 6th Avenue
Moline, Illinois 61265**

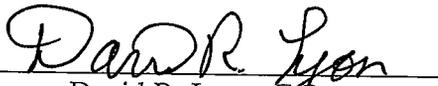

September 22, 2008

EXECUTIVE STATEMENT

The findings, conclusions and comments stated in this report are expressly limited to the matter specifically noted and set forth. Environmental conditions and regulations are subject to change and reinterpretation; therefore, the findings, conclusions and comments must be viewed within this context. Further, Landmark Environmental Services, Inc. (LES) has substantially relied upon the interviews, information and recitations as set forth herein and specifically the authenticity, accuracy and completeness of same is expressly conditioned upon said information so provided and the undersigned assumes no liability and specifically does not warrant any matters addressed herein beyond the interpretation and evaluation of the data received and as expressly noted herein.

This report represents the professional judgment and opinion of Landmark Environmental Services, Inc. and its associates.

I declare that, to the best of my ability, professional knowledge and belief, I meet the definition of an Environmental Professional. I have the specific qualifications based on education, training, and experience to assess the nature, history, and setting of the subject property. I have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

David R. Lyon, E.P.
President

EXECUTIVE SUMMARY

This report presents the results of the Phase I Environmental Site Assessment (Phase I ESA) performed by Landmark Environmental Services, Inc. (LES) as “Subcontractor” for Terracon Consultants, Inc. for the City of Moline Brownfield Project (client) for a property located at 1404 6th Avenue, Moline, Illinois (subject property). The Phase I ESA was conducted in general conformance with the “Master Agreement for Subcontractor Services” dated November 30, 2006, the “Master Agreement for Subcontractor Services Task Order” signed July 25, 2008, and is consistent with the American Society for Testing and Materials (ASTM) “Standard Practice for Environmental Site Assessments: Phase I Assessment Process” (Standard Designation E-1527-05) guidelines.

The subject property contains approximately 8,125 Sq. Ft. (MOL) with a three (3) story commercial building that contains approximately 24,375 Sq. Ft. The subject property is occupied by the Fraternal Order of Eagles. The subject property is located in an area developed primarily for commercial and retail use. The subject property is currently bounded by the following properties:

North: 6th Avenue

South: Access Alley

East: City of Moline Vehicle Parking Lot

West: 14th Street

Based on observations made during the Phase I ESA and review of available information, no Recognized Environmental Conditions (RECs) were identified in association with the subject property.

1.0 INTRODUCTION

This report presents the results of the Phase I Environmental Site Assessment (Phase I ESA) performed by Landmark Environmental Services, Inc. (LES) at the subject property located at 1404 6th Avenue, Moline, Illinois (subject property). Presented below is a summary of the current site development features:

One (1) three-story, commercial building with basement

The subject property is a rectangular shaped parcel that contains approximately 8,125 Sq. Ft. (MOL) with the existing commercial building that contains approximately 24,375 Ft. The Moline Township property record cards show that the structure was constructed in circa 1910. It was reported by Ms. Carlara Brumbaugh, (current property owner’s representative) that the most recent improvements added to the property was the reroofing of the existing structure in 2007.

1.1 Purpose

The objective of the Phase I ESA is to review past and present land use practices, site operations, and conditions for the subject and nearby properties to evaluate if there are Recognized Environmental Conditions (RECs) on the subject property or whether potential RECs may occur due to documented impacts or activities at adjacent or surrounding properties. In accordance with ASTM E 1527-05, a REC is defined as:

The presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include *de minimis* conditions that generally do not present a threat to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not recognized environmental conditions.

1.2 Scope of Services

The services were conducted in general conformance with the “Master Agreement for Subcontractor Services” dated November 30, 2006, the “Master Agreement for Subcontractor Services Task Order” signed July 25, 2008, and is consistent with the American Society for Testing and Materials (ASTM) “Standard Practice for Environmental Site Assessments: Phase I Assessment Process” (Standard Designation E-1527-05) guidelines. The purpose of this Phase I ESA is to assist the client in developing information to identify RECs in connection with subject property as reflected by the scope of this report.

1.3 Significant Assumptions

LES’s Scope of Services included user-provided information, a regulatory database review, historical and physical records review, a visual non-invasive site reconnaissance of the subject property and adjoining properties and reasonably ascertainable public information obtained from a variety of sources.

It was not possible for LES to verify the accuracy or completeness of this information. However, the use of and reliance on this information is a generally accepted practice in the performance of environmental due diligence. During the site reconnaissance, LES visually and physically observed representative areas of the interior and exterior of the subject property.

1.4 Limitations and Exceptions

No site-specific limitations, such as inclement weather (e.g. snow covering), physical obstructions, or inability to access areas of the subject property, which limited the ability of LES to complete the Scope of Services, were encountered during the performance of the Phase I ESA.

LES's interpretations of the reasonably ascertainable historical information; conversations with personnel knowledgeable about the site, and other reasonably ascertainable information, as referenced, is included in the report. Findings in this report are based upon the site's current utilization; information derived from the most recent site reconnaissance and other activities described herein and, such information is subject to change. Certain indicators of the presence of hazardous substances or petroleum products may have been latent, inaccessible and unobservable. These services are not intended for legal advice or interpretation. These conclusions are intended exclusively for the purpose stated herein, at the site indicated, and for the project indicated.

This ESA was not intended to be a definitive investigation of possible contamination at the subject property. The purpose and scope of this ESA was to assist the client in developing information to identify RECs in connection with the site as reflected by the scope of this report.

This report is intended to be used in its entirety. No excerpts may be taken to be representative of the findings of this assessment.

Opinions and recommendations presented in this report apply to the site conditions and features, as they existed at the time of LES's site reconnaissance and such information is subject to change. They cannot necessarily apply to conditions and features of which LES is unaware and has not had the opportunity to evaluate.

1.5 Additional Scope of Limitations, ASTM Deviations and Significant Data Gaps

Based on the agreed-on scope of services, this ESA did not include subsurface or other invasive assessments, business environmental risk evaluations, or other services not particularly identified and discussed herein. Reasonable attempts were made to obtain information within the scope and time constraints set forth by the client. However, in some instances, information requested is not, or was not, received by the issuance date of the report. Information obtained for this ESA was received from several sources that we believe to be reliable; nonetheless, the authenticity or reliability of these sources cannot and is not warranted hereunder. This ESA was further limited by the following:

- Specific property boundaries for the site were not provided. Reference to the site property boundaries are based on observations during the site reconnaissance and the actual site property boundaries may differ.
- Some pertinent documents are referred to in the text of this report, and a separate reference section has not been included.
- Land use was not determined prior to 1886.

An evaluation of the significance of these limitations and missing information with the respect to our findings has been conducted, and where appropriate, significant data gaps are identified and discussed in the text of the report. However, it should be recognized that an evaluation of the significance of these data gaps is based on the information available at the time of the report issuance, and an evaluation of the information received after the report issuance date may result in an alteration of our report. We have no obligation to provide information obtained or discovered by us after the date of this report, or to perform any additional services, regardless of whether the information would affect any conclusions, recommendations, or opinions in the report. This disclaimer specifically applies to any information that has not been provided by the client.

1.6 User Reliance

This report is intended for the use of the City of Moline, Illinois as the principal end user of this information. Although the report is available for review by the public, further reliance by others is beyond the scope of the grant and USEPA funding.

The information contained in this report is for the sole benefit of the City of Moline in determining feasibility for redevelopment and restoration of the property. The information and funding expended to produce it does not provide windfall or extraneous benefits to property owners. The Scope of Services performed during this investigation may not be appropriate for other users, and any use or re-use of this document, or the findings, conclusions, or recommendations presented herein are at the sole risk of said user. Pursuant to ASTM 1527-05, reliance on this report is limited to 180 days from the issuance date of this report.

1.7 Client Provided Information

Pursuant to Section 6 of ASTM 1527.05, LES requested that the client provide the information to satisfy the User's Responsibility to help identify the possibility of RECs in connection with the subject property. Mr. Patrick Burke of the City of Moline (user) completed a form on July 24, 2008, that responded to the following questions:

1.7.1 Actual Knowledge of Environmental Cleanup Liens

Actual knowledge of any environmental cleanup liens encumbering the site was requested from the client.

Mr. Patrick Burke was not aware of any environmental cleanup liens associated with the subject property. In addition, the client authorized Terracon to have a title search performed, which included a search for environmental liens for the subject property.

1.7.2 Activity and Use Limitations

Actual knowledge of any activity and use limitations (AULs) associated with the subject property was requested from the client.

Mr. Patrick Burke was not aware of any AULs associated with the subject property.

1.7.3 Specialized Knowledge or Experience

Specialized knowledge or experience significant to potential RECs in connection with the site or nearby properties was requested from the client.

Mr. Patrick Burke did not have any specialized knowledge or experience that would be significant to potential RECs associated with the subject property or nearby properties.

1.7.4 Reason for Significantly Lower Purchase Price

Actual knowledge of a significantly lower purchase price due to the presence of hazardous substances or petroleum products in connection with the site was requested from the client.

The client is not a party associated with any purchase or sales transaction pending for the subject property. The ESA was conducted for a Community Development Project.

1.7.5 Commonly Known or Reasonably Ascertainable Information

Commonly known or reasonably ascertainable information within the local community about the site that is significant to potential RECs in connection with the site was requested from the client.

Mr. Patrick Burke did not have any commonly known or reasonably ascertainable information that would be significant to potential RECs in connection with the subject property.

1.7.6 Indicators of Contamination at the Site

Information about obvious indicators that point to the presence or likely presence of contamination at the site was requested from the client.

Mr. Patrick Burke did not have any information regarding any indicators of contamination at the subject property.

2.0 SITE DESCRIPTION

Information concerning the subject property was obtained from a site reconnaissance conducted by Mr. David Lyon of LES, interviews with the site owner, and review of available documents.

2.1 Location and Description of the Property

The subject property is located along the south side of 6th Avenue, east of 14th Street and south of an access alley in the City of Moline, Rock Island County, Illinois. The location of the subject property is presented on the Site & Vicinity Sketch located in Appendix C.

2.2 Site and Vicinity General Characteristics

The subject property is located in an area developed primarily for commercial and retail use. The Mississippi River is located approximately .25 miles north of the subject property. Commercial and retail business properties are located in the immediate vicinity of the subject property.

2.3 Current Use of the Property

The subject property is occupied by Fraternal Order of Eagles and utilized for the following:

Basement: Currently utilized for storage and contains the gas-fired, hot-water boiler

1st floor: Reception/banquet and bingo hall with kitchen and restroom facilities

2nd floor Meeting rooms, offices with barroom, kitchen and restroom facilities

3rd floor Reception/banquet hall with barroom, kitchen and restroom facilities

The following utilities are provided to the subject property:

Electricity: MidAmerican Energy Company

Natural Gas: MidAmerican Energy Company

Water: City of Moline

Sanitary Sewer: City of Moline

2.4 Description of On-Site Structures, Roads and Improvements

Presented below is a summary of the current site development features:

One (1) three-story, commercial building with basement, constructed on a concrete foundation, masonry and brick side walls with a flat built-up roof. The structure is heated by a gas-fired, hot-water boiler and cooled by a combination of roof-mounted air-conditioning units and a water cooling system. A mechanical operated passenger elevator provides access to the upper floors.

2.5 Current Uses of Adjoining Properties

The current occupants of other properties in the vicinity of the subject property are shown on the Site & Vicinity Sketch. The subject property is currently bound by the following properties:

North: 6th Avenue

South: Access Alley

East: City of Moline Vehicle Parking Lot

West: 14th Street

3.0 HISTORICAL USE INFORMATION OF THE SUBJECT AND ADJOINING PROPERTIES

3.1 Previous Environmental Reports

LES was not provided any records or reports of previous environmental assessments.

3.2 Title Records

At the direction of the client, a title search was ordered by Terracon from Midwest Community Title for the subject property. The first recorded deed transaction was showing that Walter Peterson, Oscar Carlson and William Talley Trustees of Moline Aerie No. 1112 Fraternal Order of Eagles, Incorporated by virtue of a deed filed October 13, 1914.

The results of the Title Search can be reviewed in Appendix E.

3.3 Environmental Liens or Activity and Use Limitations

An environmental lien search was conducted with the above mentioned title record search and no environmental liens were recorded for the subject property.

3.4 Historical Owner and/or Occupant Information Interviews

LES interviewed Mr. Michael Daly & Ms. Carlara Brumbaugh, (current property owner's representatives) August 16 and September 8, 2008 regarding general information on the historical use of the subject property and nearby properties.

According to Mr. Daly and Ms. Brumbaugh, the subject property has been owned and operated by the Fraternal Order of Eagles since the building was built in circa 1912. In addition, Mr. Daly and Ms. Brumbaugh stated that to the best of their knowledge the property has always been utilized for fraternal meetings, banquets, receptions and bingo hall.

In summary, Mr. Daly and Ms. Brumbaugh stated that they had no knowledge of any past or present practices that may cause a potential concern of an environmental risk or liability to the target property. Information obtained during performance of the interviews has been incorporated into text presented within this report.

3.5 Sanborn Fire Insurance Maps

LES reviewed Sanborn Fire Insurance Maps for the area of the subject property as provided by EDR. Sanborn Maps are detailed drawings that show the location and use of structures on a given property during specific years. These maps were originally utilized by insurance companies to assess fire risk, but are now utilized as a valuable source of historical and environmental risk information. Sanborn Maps are provided and can be reviewed in Appendix B. Coverage for the subject property area was available for the following years:

- 1886 The subject property appears to have two (2) dwellings and some small sheds and the other surrounding properties appear as mostly dwellings with small sheds which would be typical of a residential property during that era.
- 1892 The Sanborn Map is similar to 1886
- 1898 The Sanborn Map is similar to 1892
- 1906 The Sanborn Map is similar to 1898
- 1912 The subject property appears to have the existing three (3) story structure. The Sanborn Map also shows that the structure was utilized as “F.O.E. Club Room”
- 1950 The Sanborn Map is similar to 1912 and the surrounding properties appear in the general configuration as observed during the site reconnaissance.
- 1967 The Sanborn Map is similar to 1950
- 1970 The Sanborn Map is similar to 1967

3.6 Historical Aerial Photograph Review

Historical aerial photographs of the subject property for the years of 1959, 1965, 1994 and 2000 were reviewed by LES and an interpretation of each photograph is presented below.

1959 Aerial Photograph (City of Moline Zoning and Planning Department)

The subject property appears to have the present three (3) story structure. Other surrounding properties appear in the same general configuration as observed during the site reconnaissance.

1965 Aerial Photograph (City of Moline Zoning and Planning Department)

The subject property appears in a similar configuration as observed during the site reconnaissance. Other surrounding properties appear in the same general configuration as in the 1959 aerial photograph.

1994 Aerial Photograph (City of Moline Zoning and Planning Department)

The subject property appears in a similar configuration as observed during the site reconnaissance. Other surrounding properties appear in the same general configuration as in the 1965 aerial photograph.

2000 Aerial Photograph (USGS) U.S. Geological Survey) Terra Server Web Site

The subject property appears in a similar configuration as observed during the site reconnaissance. Other surrounding properties appear in the same general configuration as observed during the site reconnaissance.

3.7 Historical Topographic Map Review

Historical topographic maps of the subject property vicinity for the years 1894, 1901, 1912, 1949, 1953, 1970, 1975, and 1991 were obtained from EDR for the Phase I ESA and an interpretation of each map is presented below. Historical topographic maps are provided in the Appendix D.

1894 Topographic Map

The area near the subject property was visible on the topographic map.

1901 Topographic Map

The area near the subject property was visible on the topographic map.

1912 Topographic Map

The subject property and the surrounding area were visible on the topographic map. In addition, the topographic map has small black square symbols that represent structures in the general area of the subject property

1949 Topographic Map

Portions of the topographic map are shaded which is consistent with urban development and only landmark structures are shown. No landmark structures are depicted on the subject property.

1953 Topographic Map

The subject property and surrounding area appeared to be similar to 1949.

1970 Topographic Map

The subject property and surrounding area appeared to be similar to 1953.

1975 Topographic Map

The subject property and surrounding area appeared to be similar to 1970.

1991 Topographic Map

The subject property and surrounding area appeared to be similar to 1975.

3.8 Historical Panoramic Maps

Historical panoramic maps of the subject property vicinity for the year 1889 were obtained from The Library of Congress web site and an interpretation of the map is presented below.

1889 Panoramic Map

The subject property appears to have two (2) structures and the surrounding area appears to have numerous structures which are consistent with urban development during that era.

3.9 Summary of Historical Review

Based on a review of historical documents and aerial photographs, it is unlikely that the historic development and use of the subject property would result in a REC.

4.0 PHYSICAL, GEOLOGICAL AND HYDROGEOLOGICAL SETTING

Environmental characteristics including topography, geology, and hydrogeology were evaluated based on site observations, published literature, and maps.

4.1 Physical Setting

According to the Davenport East topographic map (USGS, 1991), the elevation of the subject property is approximately 600 feet above mean sea level. The topography of the subject property is downgradient (south to north) of 7th Avenue and at or slightly above 6th Avenue.

4.2 Site Geology

Based on a review of the USDA Soil Survey of Rock Island County, Illinois, the subject property is underlain by soils classified as Muscatine silty clay loam that is nearly level, moderately well drained and moderately permeable.

4.3 Site Hydrogeology

Based on review of area topography maps, groundwater flow direction is generally a subdued reflection of site topography, but is also generally influenced by nearby major water bodies. The most likely direction of regional groundwater flow would be north towards the Mississippi river.

However, it is possible that the nearby river and the changing levels of the river could cause localized shallow groundwater flow gradients to exist in the immediate vicinity of the subject property.

4.4 Radon

LES reviewed the U.S. EPA's Map of Radon Zones for Illinois regarding radon concentrations in the State of Illinois. The map was produced in conjunction with the USGS and is based on a statewide study of uranium geologic features with high potential for radon. All counties within the state have been assigned to one of three zones as determined by their predicted average screening level for radon. Geologic provinces in Zone 1 have a predicted average screening level greater than 4 Pico Curies per liter (pCi/l). Zone 2 corresponds to a predicted average screening level between 2 and 4 pCi/l, and Zone 3 corresponds to a predicted average screening level of less than 2 pCi/l. The map indicates that Rock Island County was assigned to Zone 1, the category having the highest potential for radon hazard.

The subject property does have a basement but is not occupied. Therefore, it is LES's opinion that the potential for human exposure to significant amounts of radon gas at the subject property is low at this time. However, radon gas testing would be recommended in the future if the subject property buildings were ever remodeled to include an occupied basement area.

4.5 Wetlands

During performance of the site reconnaissance, indications of wetlands were not observed on the subject or adjacent properties.

5.0 RECORDS REVIEW

LES reviewed reasonably ascertainable information regarding historic and current site operations and conditions, as well as regulatory information regarding nearby properties. The sources reviewed included physical setting and geologic reference documents, regulatory databases, reports, interviews with site personnel, historical aerial photographs, and historical topographic maps.

5.1 Environmental Record Sources

Terracon retained Environmental Data Resources, Inc. (EDR) to evaluate whether activities on or near the subject property have the potential to create a REC on the subject property. EDR reviews databases compiled by federal, state, and local governmental agencies. The complete list of databases reviewed by EDR is included in Appendix A.

It should be noted that this information is reported to LES as a forwarded electronic copy from Terracon that they received from EDR, which in turn reports information as it is provided in various government databases. It is not possible for LES, Terracon or EDR to verify the accuracy or completeness of information contained in these databases. However, the use of and reliance on this information is a generally accepted practice in the performance of an environmental due diligence. The databases included the standard ASTM databases searched to at least their respective ASTM standard search radii, as well as additional federal and state databases searched to appropriate search radius. A description of information obtained from the EDR report follows.

The location of the target property for which the search was intended is:

1404 6th Avenue, Moline, IL

TP = Target Property

NR = Not Requested at this Search Distance

Sites may be listed in more than one database

Unmapped (orphan) sites are not considered in the foregoing analysis.

5.2 Target Property:

The target property was **not** listed in the databases searched by EDR.

5.3 Surrounding Properties:

A review of the CERCLIS-NFRAP list, as provided by EDR, and dated 12/03/07 has revealed there is one (1) CERCLIS-NFRAP site within approximately 0.5 miles of the target property at the following Moline, Illinois location:

1800 3rd AVE

Based on the location of the CERCLIS-NFRAP site and its distance from the subject property, it is unlikely that this site has created a REC on the subject property.

A review of the RCRIS-LQG list, as provided by EDR, and dated 03/06/08 has revealed there is one (1) RCRIS-LQG site within approximately 0.25 miles of the target property at the following Moline, Illinois location:

1001 16th ST

Based on the lack of violations reported for the RCRIS-LQG site and its location relative to the subject property, it is unlikely that this RCRIS-LQG facility has created a REC on the subject property.

A review of the RCRIS-SQG list, as provided by EDR, and dated 03/06/08 has revealed there are three (3) RCRIS-SQG sites within approximately 0.25 miles of the target property at the following Moline, Illinois locations:

1517 7th AVE

1411 6th AVE

418 16th ST

Based on the lack of violations reported for the RCRIS-SQG sites and their location relative to the subject property, it is unlikely that these RCRIS-SQG facilities have created a REC on the subject property.

A review of the RCRIS-CESQG list, as provided by EDR, and dated 03/06/08 has revealed there is one (1) RCRIS-CESQG site within approximately 0.25 miles of the target property at the following Moline, Illinois location:

421 12th ST

Based on the lack of violations reported for the RCRIS-CESQG site and its location relative to the subject property, it is unlikely that this RCRIS-CESQG site has created a REC on the subject property.

A review of the RCRA-NonGen list, as provided by EDR, and dated 04/01/08 has revealed there is one (1) RCRA-NonGen site within approximately 0.25 miles of the target property at the following Moline, Illinois location:

1720 6th AVE

Based on the lack of violations reported for the RCRA-NonGen site and its location relative to the subject property, it is unlikely that this RCRA-NonGen site has created a REC on the subject property.

A review of the US BROWNFIELDS list, as provided by EDR, and dated 04/01/08 has revealed there are three (3) US BROWNFIELDS site within approximately 0.5 miles of the target property at the following Moline, Illinois locations:

1411 6th AVE

1909 5th AVE

1919 5th AVE

The three (3) US Brownfields sites were part of the U.S. EPA's Targeted Brownfields Assessments (TBA) program. Based on the location of the US BROWNFIELDS sites and their distance from the subject property, it is unlikely that these sites have created a REC on the subject property.

A review of the DOD list, as provided by EDR, and dated 12/31/05 has revealed there is one (1) DOD site within approximately 1 mile of the target property at the following location:

Rock Island Arsenal Island

Based on the location of the DOD site and its distance from the subject property, it is unlikely that this site has created a REC on the subject property.

A review of the CAT list, as provided by EDR, and dated 06/01/97 has revealed there is one (1) CAT site within approximately 1 mile of the target property at the following Moline, Illinois location:

Deere Plow Works

Based on the location of the CAT site and its distance from the subject property, it is unlikely that this site has created a REC on the subject property.

A review of the SWF/LF list, as provided by EDR, and dated 12/01/2007 has revealed there are two (2) SWF/LF sites within approximately 0.5 miles of the target property at the following Moline, Illinois locations:

946 17th ST

501 15th AVE

Based on the location of the SWF/LF sites and their distance from the subject property, it is unlikely that these sites have created a REC on the subject property.

A review of the LUST list, as provided by EDR, and dated 05/16/08 has revealed there are nine (9) LUST sites within approximately 0.5 miles of the target property at the following Moline, Illinois locations:

712 16th ST

1630th 8th AVE

1726 6th AVE

1025 5th AVE

1331 15th ST

1400 3rd AVE

1830 5th AVE

525 19th ST

428 19th ST

Based on the location of the LUST sites and their distance from the subject property, it is unlikely that these sites have created a REC on the subject property.

A review of the UST list, as provided by EDR, and dated 05/20/08 has revealed there are ten (10) UST sites within approximately 0.25 miles of the target property at the following Moline, Illinois locations:

700 15 th ST	716 16 th ST	1226 5 th AVE	1628 8 th AVE
1630 8 th AVE	1720 6 th AVE	1300 5 th AVE	1611 5 th AVE
1615-19 5 th AVE	514 17 th ST		

Based on the location of the UST sites and their distance from the subject property, it is unlikely that they are RECs for the subject property.

A review of the IL ENG Controls list, as provided by EDR, and dated 04/04/08 has revealed there is one (1) IL ENG Controls sites within approximately 0.5 miles of the target property at the following Moline, Illinois location:

1800 1st AVE

Based on the location of the IL ENG Controls sites and their distance from the subject property, it is unlikely that these sites have created a REC on the subject property.

A review of the IL Inst Control list, as provided by EDR, and dated 04/04/08 has revealed there is one (1) IL Inst Control site within approximately 0.5 miles of the target property at the following Moline, Illinois location:

1800 1st AVE

Based on the location of the IL Inst Control site and its distance from the subject property, it is unlikely that this site has created a REC on the subject property.

A review of the SRP list, as provided by EDR, and dated 04/04/08 has revealed there are four (4) SRP sites within approximately 0.5 miles of the target property at the following Moline, Illinois locations:

450 11 th ST	1520 River DR	1800 1 st AVE	15 th ST / 3 rd AVE
-------------------------	---------------	--------------------------	---

Based on the location of the SRP sites and their distance from the subject property, it is unlikely that these sites have created a REC on the subject property.

A review of the IL IMPDMENT list, as provided by EDR, and dated 12/31/80 has revealed there is one (1) IL IMPDMENT site within approximately 0.5 miles of the target property at the following location:

City of Rock Island

Based on the location of the IL IMPDMENT site and its distance from the subject property, it is unlikely that this site has created a REC on the subject property.

A review of the IL BROWNFIELDSD list, as provided by EDR, and dated 06/05/08 has revealed there is one (1) IL BROWNFIELDSD site within approximately 0.5 miles of the target property at the following Moline, Illinois location:

1800 1st AVE

Based on the location of the IL BROWNFIELDSD site and its distance from the subject property, it is unlikely that this site has created a REC on the subject property.

5.4 Unmappable Sites

A review of the Unmappable Sites List, which includes sites that have not been geocoded based on lack of sufficient data regarding their exact location within the general area, identified twelve (12) sites.

Based on the provided Unmappable site addresses and observations made during the area reconnaissance, the identified sites are not likely to have created a REC on the subject property.

6.0 SITE RECONNAISSANCE

6.1 Methodology and Limiting Conditions

Mr. David Lyon of LES conducted a reconnaissance of the subject property on August 16, 2008, to observe present site and surrounding area conditions and operations, and to assess the potential for RECs to have occurred at the subject property.

Weather conditions at the time of the site reconnaissance consisted of clear skies with temperatures in the mid 80's and light southwesterly winds. During the site reconnaissance, LES visually and physically observed representative areas of the interior and exterior of the subject property.

LES also conducted a drive-by survey to observe the type of land use and nature of businesses in the vicinity of the subject property. Photographs taken during LES's site reconnaissance are provided in Appendix G.

6.2 General Site Setting

The subject property contains approximately 8,125 Sq. Ft. (MOL) with a three (3) story commercial building that contains approximately 24,375 Sq. Ft. The subject property is occupied by the Fraternal Order of Eagles. The subject property is located in an area developed primarily for commercial and retail use. The subject property is currently bounded by the following properties:

North: 6th Avenue

South: Access Alley

East: City of Moline Vehicle Parking Lot

West: 14th Street

6.3 EXTERIOR AND INTERIOR OBSERVATIONS

6.3.1 Aboveground Storage Tanks (ASTs)

During performance of the site reconnaissance, no ASTs were observed.

6.3.2 Current Tenants/Occupants

The subject property is occupied by the Fraternal Order of Eagles and utilized for meetings, banquet/reception and bingo hall.

6.3.3 Discolored Soils

During performance of the site reconnaissance, no discolored soils were observed on the subject property.

6.3.4 Drums and Other Containers

During performance of the site reconnaissance, no drums or other bulk liquid containers were observed. Some small containers (quart to 1 gallon) of paint and cleaning supplies were observed in the building of the subject property. No stained surfaces, indicative of a surface release or spill was observed near the location of the containers.

6.3.5 Dumping or Fill

During performance of the site reconnaissance, no evidence of historic waste dumping or landfilling (i.e. mounds or depressions of unknown origin, construction or demolition debris, or general municipal debris) was observed by LES on or adjacent to the subject property.

6.3.6 Floor Drains

At the time of the site reconnaissance, floor drains were observed in the restrooms of property structure. A sump pump was observed in the basement and it was reported by the property owner's representative that the sump pump discharges into the city public sanitary system.

6.3.7 Hazardous Substances as Defined under CERCLA

At the time of the site reconnaissance, no hazardous substances were observed within the subject property or in the structure.

6.3.8 Odors

During performance of the site reconnaissance, no strong, pungent, or noxious odors were observed on the subject property. However, these observations are general in nature and should not be construed as an air quality assessment.

6.3.9 PCB-Containing Equipment

The main transformers for the subject property are pole-mounted transformers located on the adjacent alley. A label was observed stating that the transformers did not contain PCBs and no staining or indications of a release were observed on the transformer units or on the ground beneath the transformers. The transformer and any associated releases are the responsibility of their owner, MidAmerican Energy Company.

6.3.10 Pesticides

At the time of the site reconnaissance, pesticides were not observed to be stored at the subject property.

6.3.11 Petroleum Products

At the time of the site reconnaissance, petroleum products were not observed to be stored at the subject property.

6.3.12 Pits, Ponds, or Lagoons

During performance of the site reconnaissance, no pits, ponds, or lagoons were observed on or adjacent to the subject property.

6.3.13 Pools of Liquid

During performance of the site reconnaissance, no pools of liquid likely to be hazardous substances or petroleum products were observed on or adjacent to the subject property.

6.3.14 Potable Water Supplies

According to the property owner's representative, the subject property is provided potable water by the City of Moline.

6.3.15 Roads and Trails

The subject property is bordered to the north by 6th Avenue and bordered to the west by 14th Street and an access alley adjoins the south boundary.

6.3.16 Sewage Disposal Systems

According to the property owner's representative the subject property is provided wastewater service by the City of Moline and he was unaware of any septic systems that may have historically been located on the subject property.

6.3.17 Solid Waste

During performance of the site reconnaissance, no solid waste disposal was observed on the subject property.

6.3.18 Stained Pavement

Minor staining, typical of small spills from vehicles and equipment, was observed on portions of the adjacent access alley. The staining would be considered *de minimis*, and would not be considered a REC.

6.3.19 Storage and Disposal of Hazardous Materials

No hazardous materials were observed being stored at the subject property as described in Section 6.3.7. According to the property owner's representative, no hazardous wastes were generated and/or disposed from the subject property.

6.3.20 Stressed Vegetation

During performance of the site reconnaissance, no stressed vegetation was observed on or adjacent to the subject property.

6.3.21 Toxic Substances

During the site reconnaissance, no toxic substances beyond those described in previous sections of this report were observed to be stored on the subject property.

6.3.22 Underground Storage Tanks (USTs)

No evidence of existing USTs was observed during the site reconnaissance. Mr. Daly and Ms. Brumbaugh stated that they were unaware of any historic USTs located on the subject property.

6.3.23 Unidentified Substance Containers

During the site reconnaissance, no unidentified substances beyond those described in previous sections of this report were observed to be stored on the subject property.

6.3.24 Urea Formaldehyde Foam Insulation

During the 1970s, many homeowners and some commercial buildings had Urea Formaldehyde Foam Insulation (UFFI) installed in wall cavities as an energy conservation measure. The Consumer Protection Safety Commission banned the sale of UFFI in 1982 due to potential emissions of Formaldehyde, and shortly thereafter a law prohibiting the sale of Urea Formaldehyde was enacted. In April 1983, the US Court of Appeal struck down the law. However, UFFI has not been widely used in the USA since 1983. During performance of the site reconnaissance, UFFI was not observed by LES. However, these observations are general in nature and should not be construed as an assessment for Urea Formaldehyde.

6.3.25 Wastewater

During the performance of the site reconnaissance, no activities that may have previously generated wastewater, other than typical sanitary discharges from the restrooms facilities and the sump pumps were observed. According to the property owner's representative, wastewater generated from these activities is discharged to the city of Moline sanitary sewer system.

6.3.26 Wells

During performance of the site reconnaissance, no water supply, injection, irrigation, dry, abandoned, or other wells were observed by LES.

6.3.27 Asbestos-Containing Material

Based upon the agreed-on scope of services, the ESA did not include an assessment for Asbestos Containing Materials (ACMs). Due to the age of the structure, it is recommended that an assessment for ACMs be performed before any planned construction or demolition activities are initiated.

6.3.28 Lead-Based Paint

Based upon the agreed-on scope of services, the ESA did not include an assessment for Lead-Based Paint (LBP). Several areas of peeling paint were observed and due to the age of the structure, it is recommended that an assessment for LBP be performed before any planned construction or demolition activities are initiated.

6.3.29 Other Observations

During performance of the site reconnaissance, LES made no other observations of site operations or conditions that would be likely to result in a REC on the subject property.

7.0 INTERVIEWS

LES interviewed the current available property owner's representatives and government officials regarding current and historic operations on the subject property, as well as any historic events that would have the potential to create a REC on the subject property.

7.1 Interviews with the Owner

LES interviewed Mr. Michael Daly & Ms. Carlara Brumbaugh, (current property owner's representatives) August 16 and September 8, 2008 regarding general information on the current and historical use of the subject property. Based on the knowledge of Mr. Daley and Ms. Brumbaugh, no releases of chemicals, disposal of materials, or other incidents of environmental concern have occurred on the subject property. Information obtained during performance of the interviews has been incorporated into text presented within this report, in particular Sections 3.4.

7.2 Interviews with Government Officials

During the performance of an environmental assessment, any federal, state and local regulatory agencies having jurisdiction over the subject property are contacted to assess the following information: the status of relevant environmental permits; whether there has been any violations, or other similar correspondence from such agencies; whether any corrective action or remediation is planned, currently taking place, or has been completed at the subject property; whether there have been any reported violations or complaints that the subject property is not in compliance with environmental laws, regulations, or standards, and whether the subject property is under investigation for such non-compliance; whether the subject property is listed on any of the regulatory databases; and whether there is any other pertinent documentation on file with such regulatory agencies regarding the subject property or surrounding sites of concern.

7.2.1 Planning & Zoning Offices

LES contacted the City of Moline Zoning and Planning Department regarding historic development of the subject property. However, the Zoning and Planning Department did not have (other than the aerial photographs) relevant historical information available.

7.2.2 Township Assessor Office

A review of Moline Township historical property record cards revealed that the subject property had the existing building constructed circa 1912.

7.2.3 Fire Department

LES contacted the City of Moline Fire Department and Mr. Ed Vise of the Moline Fire Department stated that they had not responded to any incidents of accidental releases or spills of hazardous materials at the target property.

7.2.4 Emergency Services

The office of the Rock Island County Emergency Services & Disaster Agency (ESDA) reported they have not responded to any incidents of accidental releases or spills of hazardous materials at the target property.

7.2.5 Health Department

The Rock Island County Health Department reported they have no record of any health incidents associated with the target property.

8.0 FINDINGS, OPINIONS, AND CONCLUSIONS

LES performed a Phase I ESA to assess if historic or current activities conducted at the subject property have created an REC. The Phase I ESA was conducted in general conformance with the “Master Agreement for Subcontractor Services” dated November 30, 2006, the “Master Agreement for Subcontractor Services Task Order” signed July 25, 2008, and is consistent with the American Society for Testing and Materials (ASTM) “Standard Practice for Environmental Site Assessments: Phase I Assessment Process” (Standard Designation E-1527-05) guidelines.

Based on observations made during the Phase I ESA and review of available information, no Recognized Environmental Conditions (RECs) were identified in association with the subject property.

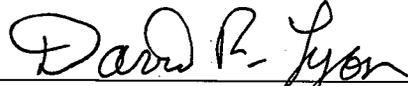

9.0 OTHER OBSERVATIONS

During the performance of the site reconnaissance, LES observed the following potential sources of an environmental concern and brings them to your attention for the sake of caution:

Due to the age of the structure, it is recommended an assessment for Asbestos Containing Materials (ACMs) be performed before any planned construction or demolition activities are initiated.

Several areas of peeling paint were observed and due to the age of the structure, it is recommended that an assessment for LBP be performed before any planned construction or demolition activities are initiated.

12.0 QUALIFICATIONS

STATEMENT OF QUALIFICATIONS

David R. Lyon

President/Environmental Professional

QUALIFICATIONS:

David Lyon has more than thirty-five (35) years in upper level management with expertise in environmental investigation, remediation and transportation of contaminated waste. This background includes identification of hazardous waste, environmental site assessments, transportation of hazardous products, asbestos identification, contaminated soil and groundwater remediation, underground storage tank identification and removal.

EXPERIENCE:

Ten (10) years as President, with emphasis in environmental business and project management.

Three (3) years as Vice President, environmental business development and project management.

Five (5) years as Zone Manager, responsible for twenty-five (25) agricultural chemical plants.

Six (6) years as Area Manager, responsible for the transportation and storage of bulk and liquid chemical products.

Eight (8) years as Plant Manager, manufacturing and distribution of agricultural chemical products.

Five (5) years as warehouse and transportation manager.

Mr. Lyon has conducted environmental Adué diligence@ site assessments on residential, commercial, industrial, agricultural properties. These comprehensive audits range from multi-family housing, institutional properties, and complex industrial sites to a real estate transaction consisting of 35,000 acres of agricultural land. Mr. Lyon has worked with all types of interested parties (attorneys, buyers, sellers, lessees, lenders, and stockholders) assessing potential environmental liabilities associated with property transfers

Experience in the design and construction of chemical storage and handling facilities include containment diking and emergency pumping systems.

Participated and directed the remediation activities at sites with liquid, dry bulk and packaged storage capabilities of hazardous, corrosive, and flammable products. Several projects completed involved storage tanks both above and underground, ranging in capacity of 500 gallons to 30,000 gallons. These projects range from routine tank closures to the remediation of soil and groundwater.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL RECORDS

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 12/03/2007 has revealed that there is 1 CERC-NFRAP site within approximately 0.5 miles of the target property.

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/06/2008 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

OLD MOLINE HS LOFT APTS LLC	1001 16TH ST	1/8 - 1/4SE	22	24

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/06/2008 has revealed that there are 3

EXECUTIVE SUMMARY

RCRA-SQG sites within approximately 0.25 miles of the target property.

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 03/06/2008 has revealed that there is 1 RCRA-CESQG site within approximately 0.25 miles of the target property.

RCRA-NonGen: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA-NonGen list, as provided by EDR, and dated 03/06/2008 has revealed that there is 1 RCRA-NonGen site within approximately 0.25 miles of the target property.

IMPDMNT: Statewide inventory of industrial, municipal, mining, oil & gas , and large agricultural impoundment. This study was conducted by the Illinois EPA to assess potential for contamination of shallow aquifers. This was a one-time study. Although many of the impoundments may no longer be present, the sites may be contaminated.

A review of the IMPDMNT list, as provided by EDR, and dated 12/31/1980 has revealed that there is 1 IMPDMNT site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Dist / Dir</u>	<u>Map ID</u>	<u>Page</u>
CITY OF ROCK ISLAND		1/4 - 1/2NNE	36	37

BROWNFIELDS: The Illinois Municipal Brownfields Redevelopment Grant Program (MBRGP) offers grants worth a maximum of \$240,000 each to municipalities to assist in site investigation activities, development of cleanup , objectives and performance of cleanup activities. Brownfields are abandoned or underused industrial and/or commercial properties that are contaminated (or thought to be contaminated) and have an active . potential for redevelopment

A review of the BROWNFIELDS list, as provided by EDR, and dated 06/05/2008 has revealed that there is 1 BROWNFIELDS site within approximately 0.5 miles of the target property.

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

FEDERAL RECORDS

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/30/2008	Source: EPA
Date Data Arrived at EDR: 05/06/2008	Telephone: N/A
Date Made Active in Reports: 06/09/2008	Last EDR Contact: 04/28/2008
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/28/2008
	Data Release Frequency: Quarterly

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/30/2008	Source: EPA
Date Data Arrived at EDR: 05/06/2008	Telephone: N/A

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 05/19/2008
Number of Days to Update: 56	Next Scheduled EDR Contact: 08/18/2008
	Data Release Frequency: No Update Planned

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 04/08/2008	Source: EPA
Date Data Arrived at EDR: 04/25/2008	Telephone: 703-412-9810
Date Made Active in Reports: 05/21/2008	Last EDR Contact: 07/22/2008
Number of Days to Update: 26	Next Scheduled EDR Contact: 09/15/2008
	Data Release Frequency: Quarterly

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 12/03/2007	Source: EPA
Date Data Arrived at EDR: 12/06/2007	Telephone: 703-412-9810
Date Made Active in Reports: 02/20/2008	Last EDR Contact: 06/17/2008
Number of Days to Update: 76	Next Scheduled EDR Contact: 09/15/2008
	Data Release Frequency: Quarterly

LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 02/08/2008	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/07/2008	Telephone: 202-564-6023
Date Made Active in Reports: 03/20/2008	Last EDR Contact: 05/19/2008
Number of Days to Update: 13	Next Scheduled EDR Contact: 08/18/2008

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 03/26/2008	Source: EPA
Date Data Arrived at EDR: 04/02/2008	Telephone: 800-424-9346
Date Made Active in Reports: 05/06/2008	Last EDR Contact: 06/02/2008
Number of Days to Update: 34	Next Scheduled EDR Contact: 09/01/2008
	Data Release Frequency: Quarterly

RCRA-TSDF: RCRA - Transporters, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/06/2008

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 03/06/2008

CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UIC: Underground Injection Wells

Injection wells are used for disposal of fluids by "injection" into the subsurface. The construction of injection wells range from very technical designs with twenty-four hour monitoring to simply a hole dug in the ground to control runoff. As a result of this diversity, the UIC Program divides injection wells into five different classes.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

LUST TRUST: Underground Storage Tank Fund Payment Priority List

In case sufficient funds are not available in the Underground Storage Tank Fund, requests for payment are entered on the Payment Priority List by "queue date" order. As required by the Environmental Protection Act, the queue date is the date that a complete request for partial or final payment was received by the Agency. The queue date is "officially" confirmed at the end of the payment review process when a Final Decision Letter is sent to the site owner.

EDR PROPRIETARY RECORDS

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data

Source: PennWell Corporation

Telephone: (800) 823-6277

This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Homes & Centers Listing

Source: Department of Children & Family Services

Telephone: 312-814-4150

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

GEOCHECK® - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

FRATERNAL ORDER OF EAGLES
1404 6TH AVENUE
MOLINE, IL 61265

TARGET PROPERTY COORDINATES

Latitude (North): 41.50464 - 41° 30' 16.7"
Longitude (West): 90.5167 - 90° 31' 0.1"
Universal Tranverse Mercator: Zone 15
UTM X (Meters): 707261.9
UTM Y (Meters): 4597544.0
Elevation: 580 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map: 41090-E5 DAVENPORT EAST, IA
Most Recent Revision: 1993

East Map: 41090-E4 SILVIS, IA
Most Recent Revision: 1991

Southeast Map: 41090-D4 COAL VALLEY, IL
Most Recent Revision: 1991

South Map: 41090-D5 MILAN, IL
Most Recent Revision: 2000

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

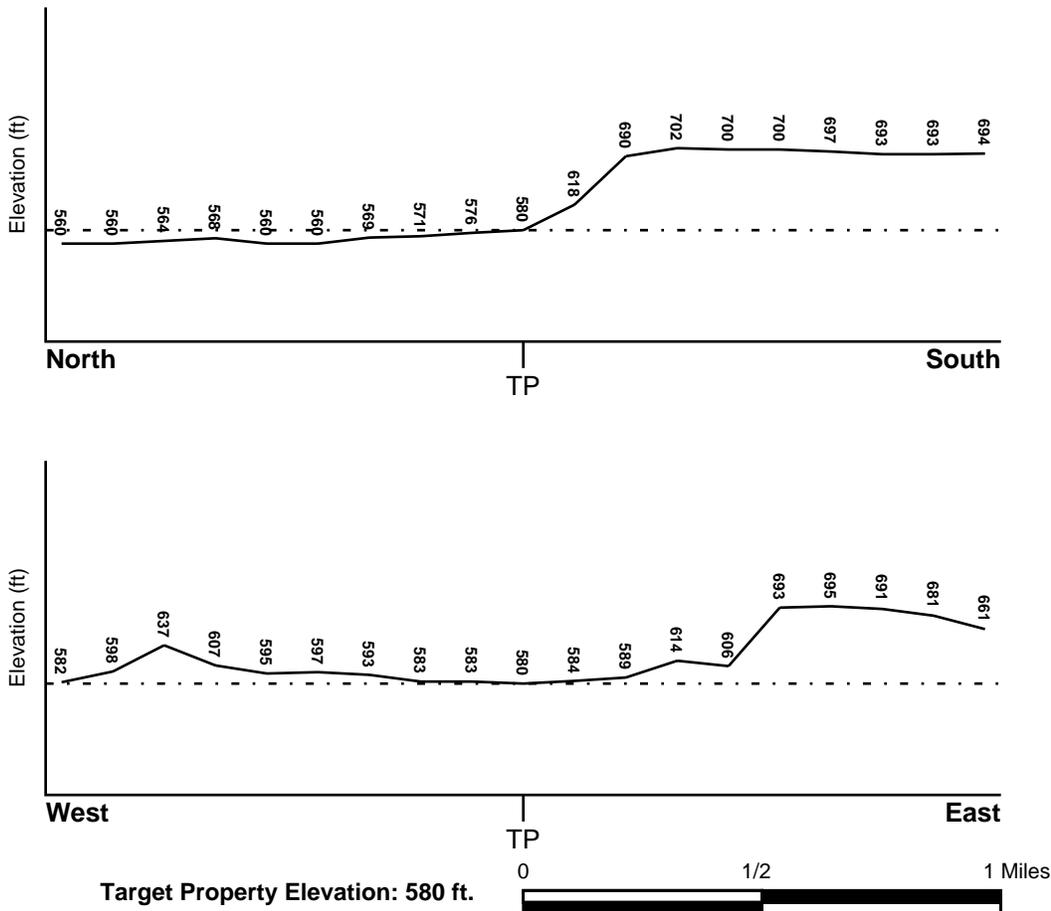

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General North

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Target Property County</u> ROCK ISLAND, IL	<u>FEMA Flood Electronic Data</u> YES - refer to the Overview Map and Detail Map
Flood Plain Panel at Target Property:	1705910005B
Additional Panels in search area:	1705820100C

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u> DAVENPORT EAST	<u>NWI Electronic Data Coverage</u> YES - refer to the Overview Map and Detail Map
--	---

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

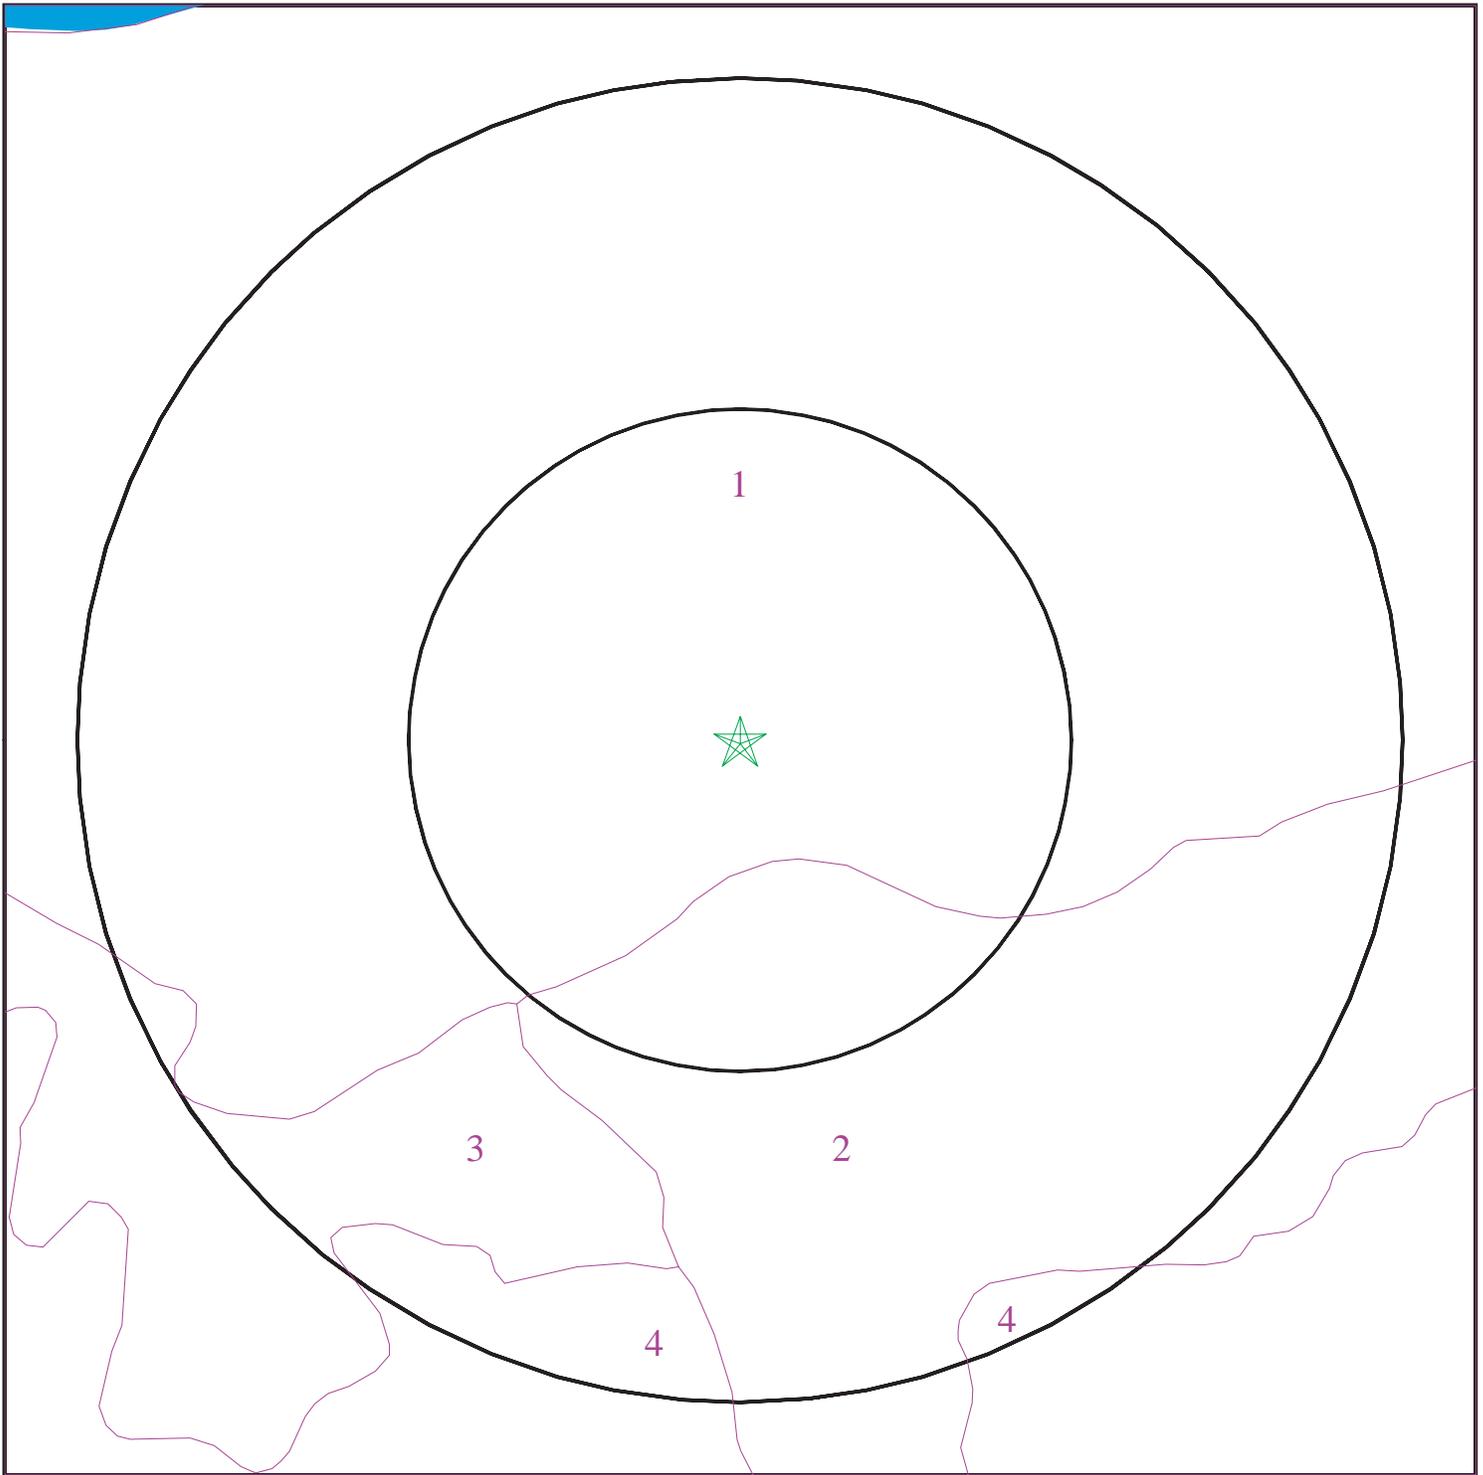

Era:	Paleozoic
System:	Devonian
Series:	Upper Devonian
Code:	D3 (<i>decoded above as Era, System & Series</i>)

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Muscatune

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	16 inches	silt loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
2	22 inches	46 inches	silty clay loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
3	46 inches	59 inches	silt loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
4	16 inches	22 inches	silty clay loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: Atlas

Soil Surface Texture: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	5 inches		Not reported	Not reported	Max: 1.41 Min: 0.42	Max: 7.8 Min: 6.1
2	5 inches	16 inches		Not reported	Not reported	Max: 1.41 Min: 0.42	Max: 7.8 Min: 6.1
3	16 inches	48 inches		Not reported	Not reported	Max: 1.41 Min: 0.42	Max: 7.8 Min: 6.1
4	48 inches	59 inches		Not reported	Not reported	Max: 1.41 Min: 0.42	Max: 7.8 Min: 6.1

Soil Map ID: 3

Soil Component Name: Hickory

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

The EDR Historical Topographic Map Report

EDR Historical Topographic Map Report

Environmental Data Resources, Inc.s (EDR) Historical Topographic Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topographic Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the early 1900s.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Appendix F
Client/User Information Questionnaire

In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Relief and Brownfields Revitalization Act of 2001, the user must respond to the following questions. Failure to provide this information to the Environmental Professional may result in significant data gaps, which may limit the ability to identify recognized environmental conditions (RECs) and result in a determination that “all appropriate inquiry” is not complete. This form represents a type of interview and as such, the user has an obligation to answer all questions in good faith, to the extent of their actual knowledge.

Site Name: Fraternal Order of Eagles

Site Address: 1404 6th Avenue, Moline, Illinois

1. Are you aware of any environmental cleanup liens against the site that are filed or recorded under federal, tribal, state, or local law (40 CFR 312.25)?

No Yes

If yes, please explain.

2. Are you aware of any activity and use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law (40 CFR 312.26)?

No Yes

If yes, please explain.

3. As the user of this ESA, do you have any specialized knowledge or experience related to the site or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the site or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business (40 CFR 312.28)?

No Yes

If yes, please explain.

4. Does the purchase price being paid for this site reasonably reflect the fair market value of the site (40 CFR 312.29)?

No Yes Unknown, City is not a party to a purchase.

If no, have you considered whether the lower purchase price is because contamination is known or believed to be present at the site (40 CFR 312.29)?

No Yes

If yes, please explain.

Phase I ESA User Checklist
Moline Brownfield Assessment Grant Project

5. Are you aware of commonly known or reasonably ascertainable information about the site that would help the Environmental Professional identify conditions indicative of releases or threatened releases (40 CFR 312.30)?

No Yes

If yes, please explain.

6. As the user of this ESA, based on your knowledge and experience related to the site, are there any obvious indicators that point to the presence or likely presence of contamination at the site (40 CFR 312.31)?

No Yes

If yes, please explain.

Request for Information and Documentation

ASTM E 1527-05 requires that the following information, if available, be provided to the environmental professional before the site visit.

Item Supplied	Not Applicable, Not Available, or Not Known	Item Requested (See Proposal)	Contacts/Comments or Indicate Attachment
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Point of Contact for Access	Name/Phone: Michael Daly/309-721-6005

Helpful Documents

Pursuant to ASTM E 1527-05 §10.8, do you know whether any of the following documents exist related to the subject property and, if so, whether copies can and will be provided to the environmental professional? Check all that apply.

- Environmental site assessment reports
- Environmental compliance audit reports
- Geotechnical studies
- Reports regarding hydrogeologic conditions on the property or surrounding area
- Registrations for above or underground storage tanks
- Notices or other correspondence from any governmental agency relating to past or current violations of environmental laws with respect to the property or relating to environmental liens encumbering the property
- Registrations for underground injection systems
- Environmental permits/plans, solid waste permits, hazardous waste disposal permits, wastewater permits, NPDES permits, underground injection permits, SPCC plans
