APPENDIX D – FILE SEARCH

APPENDIX E – ADDITIONAL INFORMATION

1.00 SUMMARY

Shive-Hattery, Inc. was retained to conduct a Phase I Environmental Site Assessment ("ESA") of the property at 1920 5th Avenue in Moline, Illinois, ("Site"). Federal, state and local files have been reviewed. Past and present activities at the Site have been discussed with regulatory personnel and other people who are knowledgeable about the Site.

The purpose of this investigation is to identify recognized environmental conditions on the subject property, or in the near vicinity of the subject property, which have the potential to negatively impact the environmental integrity of the subject property. A recognized environmental condition is the presence or likely presence of any hazardous substances or petroleum products on the property under conditions that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products into structures at the property, or into the ground, groundwater or surface water of the property (ASTM 2005).

Environmental concerns regarding asbestos, radon, lead-based paint, lead in drinking water and wetland habitats are not considered in the scope of this Environmental Site Assessment.

This Phase I Environmental Site Assessment meets the American Society for Testing and Materials (ASTM) Standard E 1527-05 (ASTM 2005).

No Environmental Site Assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property. This Environmental Site Assessment is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with the subject property (ASTM 2005).

2.00 INTRODUCTION

Shive-Hattery, Inc. was retained to conduct a Phase I Environmental Site Assessment ("ESA") of the property at 1920 5th Avenue in Moline, Illinois, ("Site"). Federal, state and local files have been reviewed. Past and present activities at the Site have been discussed with regulatory personnel and other people who are knowledgeable about the Site. This report presents a review of the research activities conducted and conclusions reached regarding the current environmental condition of the Site. The services provided for this project consisted of the work tasks described below:

- Conduct a background review of the Site's history, contacts with city, county, state, and federal environmental offices, evaluation of available aerial photography, and interviews with Site owners/operators.
- Perform a visual evaluation of the Site and adjacent property for evidence of releases or threat of releases of hazardous substances, fuels, and other environmental concerns.
- Review the regional geology and hydrogeology of the Site vicinity, including records of groundwater contamination. Also review readily available reports of compliance violations and/or contaminant discharges in the Site vicinity, and the proximity of the Site to known environmental conditions or problems.
- Provide a report in general conformance with the scope of limitations of American Society of Testing and Materials (ASTM) standards summarizing the activities performed, findings of the evaluation, and recommending additional Phase II activity, if appropriate.

3.00 SITE DESCRIPTION

3.10 Location and General Description

The subject property is currently a vacant warehouse space. The property is located in the northeast quarter of Section 32, Range 1 West, Township 18 North of the 4th Principal Meridian Rock Island County, Illinois. A Site Location Map is provided in *Appendix A*.

3.20 Site and Vicinity Characteristics

The subject property is located in a mixed use area of Moline, Illinois.

To the north are 5th Avenue and a former personnel/marketing office space which is currently vacant;

To the northwest is the former O'Rourke Brothers Distributing, a former gas/service station, 19th Street and the LeClaire Hotel;

To the west are McLaughlin Precision Care (auto body repair & oil changes), 19th Street and a Cenex gas station;

To the southwest is open gravel parking lot;

To the south is residential;

To the southeast is residential and the I-74 Bridge;

To the east are an open grass lot and the I-74 Bridge;

To the northeast is former personnel/marketing office space which is currently vacant, a parking lot and the I-74 Bridge.

3.30 Description of Structures and Other Improvements on the Site

Based on visual observations and through additional historical research, the subject property was built in the 1960's as a grocery store and then has been utilized since the late 1970's by Berry Bearing for parts sales and office and warehouse space. Berry Bearing moved out of the subject site in May 2009.

4.00 USER PROVIDED INFORMATION

4.10 User Provided Information for the Site

The following information was requested from the user of this report on September 24, 2009.

1. Legal, accounting and insurance counseling services that may be necessary.
2. Assist with site access authorization, if necessary.
3. Copies of any prior environmental site assessment reports or information for the property.
4. Contact information for current and previous site owners.
5. Evidence of any environmental liens for the subject site.
6. Documentation of purchase price to fair market value of the property.

To date (10-14-09), the user of this report, did not report any environmental liens encumbering the property or that the valuation of the subject property had been reduced for environmental reasons.

5.0 RECORDS REVIEW

5.10 Physical Settings Sources

5.11 U.S. Geological Survey (USGS)

The USGS 7.5 Minute Series (Topographic) Davenport East, Iowa Quadrangle Map, 1993 was reviewed. Topographic maps depict structural as well as natural surface features and elevated contours. The property of concern is shown at an approximate elevation of 580 feet.

5.12 Soil Survey of Rock Island County

The soil survey of Rock Island County published by the U.S. Department of Agriculture (USDA) Soil Conservation Services was reviewed. The soils present at the subject property are classified as Muscatine Silt Loam Association. The Muscatine silt loam are deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

5.13 Groundwater Hydrogeology

The direction of groundwater flow across the Site is important in determining if off-site contamination could impact the property. The 1993 USGS 7.5 Minute Series (Topographic) Davenport East, Iowa Quadrangle Map was used to estimate the groundwater flow gradient. The general topography of the land surrounding the property is flat with a slight slope in a north/northwesterly direction; therefore, the estimated groundwater gradient is in a north/northwesterly direction toward the Mississippi River.

5.14 Groundwater Well Information

Sixteen wells were identified within the search radius of the subject property; the search distance is a 1-mile radius of the subject property. The wells have been identified as the following by well ID number:

- IL10151414, which is approximately 0 to 1/8 -mile west/northwest of the subject property.
- IL10151162, which is approximately 1/4 to 1/2 -mile west/southwest of the subject property.
- IL0048801, which is approximately 1/4 to 1/2 -mile west/southwest of the subject property.
- IL10151663, which is approximately 1/4 to 1/2 -mile west/southwest of the subject property.
- IL10150493, which is approximately 1/4 to 1/2 -mile south of the subject property.
- IL10150494, which is approximately 1/4 to 1/2 -mile south of the subject property.
- IL10150495, which is approximately 1/4 to 1/2 -mile south of the subject property.
- IL10150716, which is approximately 1/4 to 1/2 -mile southeast of the subject property.
- IL10150717, which is approximately 1/4 to 1/2 -mile southeast of the subject property.

- IL10150715, which is approximately ¼ to ½ -mile southeast of the subject property.
- IL10150377, which is approximately ¼ to ½ -mile south of the subject property.
- IL10150270, which is approximately ½ to 1-mile south of the subject property.
- IL10152220, which is approximately ½ to 1-mile north/northwest of the subject property.
- IL10151645, which is approximately ½ to 1-mile west/northwest of the subject property.
- IL20002496, which is approximately ½ to 1-mile south/southwest of the subject property.
- IL10149828, which is approximately ½ to 1-mile south/southwest of the subject property.

Please see *Appendix D* for further information.

5.20 Historical Use Information

5.21 Aerial Photography

Aerial photographs were available through the EDR File Search from 1945, 1970, 1980, 1984, 1990, 1994, 2000, 2005 and 2006 and were reviewed. Copies of the available aerial photos are included in *Appendix C*.

5.22 Fire Insurance Maps

Sanborn Fire Insurance Maps were available through the EDR File Search from 1886, 1892, 1898, 1906, 1912, 1950, 1957, 1967 and 1970 for the subject property. The subject property is shown as a dwelling on the maps from 1886 through 1912. On the 1950 through the 1970 maps the subject site is shown as a store with a note that it was built in 1950. Copies of the available Sanborn maps are included in *Appendix C*.

5.23 Ownership Review

The following is a limited history of ownership for the Property.

- Currently owned by Moline Consumers Company.
- Moline Consumers purchased the property in January 1975 from Carl & Dorothy Peterson. A copy of the deed is included in *Appendix E*.

5.24 Historic Topographic Maps

Historic topographic maps were available through the EDR File Search. Maps from 1912, 1949, 1953, photo-revised 1970, 1975, and 1991 and 1993 were available for the property. The property appears to be in a developed area on all maps. Copies of the maps are included *Appendix C*.

5.25 City Directory Search

City directories were available for the subject property through the EDR File Search; the subject site was listed in the directories from 1978 through 2009. In addition, information on adjoining properties was also available from 1958-2009. Copies of the report are included in *Appendix C*.

5.26 Building Department Records

No building department records were available for the subject property.

5.30 Federal and State Environmental Record Sources

Environmental Data Resources, Inc. of Southport, Connecticut, was retained to provide listings of state and federally regulated sites and/or incidents within the required search radius of the subject property, as specified by ASTM Standard Practice E 1527-05. General explanations of the lists and results are included in *Appendix D*. The following records were reviewed:

Federal Records	Number of Sites
National Priority List (NPL)	0
Comprehensive Environmental Response Compensation and Liability Act (CERCLIS)	0
Comprehensive Environmental Response Compensation and Liability Act (CERCLIS NFRAP)	1
CORRACTS	0
RCRIS - LG Large Quantity Generators	0
RCRIS - SQG Small Quantity Generators	2
RCRIS - CESQG Conditionally Exempt Small Quantity Generators	2
RCRA Non Generator	5
US Brownfields	5
Department of Defense (DOD)	1
State & Local Records	
State Category List Site (CAT)	1
Solid Waste Facility/Landfill (SWF/LF)	1
Leaking Underground Storage Tanks (LUST)	9
Registered Underground Storage Tanks (UST)	13
Manufactured Gas Plant	0
Institutional Control	4
Engineering Controls	3
Site Remediation Program (SRP)	6
Illinois Brownfields	2
Illinois Impoundment (IMPDMENT)	1

The file identified the following environmental concerns within the required search radius of the property.

For the purposes of this report, a recognized environmental condition (REC) is defined as the presence or likely presence of a hazardous substance or petroleum product on the subject property, under conditions that indicate an existing release, past release, or threat of a release of a hazardous substance or petroleum product into the soil, groundwater or surface water of the subject property.

CERC-No Further Remedial Action Planned (NFRAP) –

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list as provided by EDR has revealed that there is one CERCLIS site within approximately 0.5 miles of the subject property. The facility is identified as:

- **Industrial Sales Company.** (1800 3rd Avenue), which is approximately 1/8 to 1/4 mile west/northwest of the subject property. *(This site is not considered a recognized environmental concern due to the fact the site is listed as NFRAP as of 01/20/1989.)*

RCRA-Small Quantity Generator (SQG) –

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-CESQG list as provided by EDR has revealed that there are two RCRA-SQG sites within approximately 0.25 miles of the subject property. The facilities are identified as:

- **Precision Car Care** (1900 5th Avenue), which is just west of the subject property. *(This site is not considered a recognized environmental concern as a SQG due to the fact the site had no violations found.)*
- **Caxton Block** (1707-1709 River Drive), which is approximately 1/8 to 1/4 mile west/northwest of the subject property. *(This site is not considered a recognized environmental concern as a SQG due to the fact the site had no violations found.)*

RCRA-Conditionally Exempt Small Quantity Generator (CESQG) –

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list as provided by EDR has revealed that there are two RCRA-CESQG sites within approximately 0.25 miles of the subject property. The facilities are identified as:

- **Koelz DX Co.** (525 19th Street), which is just southwest from the subject property. *(This site is not considered a recognized environmental concern as a CESQG due to the fact the site had no violations found.)*
- **Deere & Co.** (400 19th Street), which is just northwest from the subject property. *(This site is not considered a recognized environmental concern as a CESQG due to the fact the site had no violations found.)*

RCRA-Nongenerator (NONGEN) –

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-generators do not presently generate hazardous waste.

A review of the RCRA-CESQG list as provided by EDR has revealed that there are five RCRA-Nongen sites within approximately 0.25 miles of the subject property. The facilities are identified as:

- **Lundahl Motors Inc.** (1801 5th Avenue), which is approximately 1/8 to 1/4 mile west/southwest from the subject property. *(This site is not considered a recognized environmental concern as non-generators do not presently generate hazardous waste.)*
- **Argus Co.** (1724 4th Avenue), which is approximately 1/8 to 1/4 mile west/southwest from the subject property. *(This site is not considered a recognized environmental concern as non-generators do not presently generate hazardous waste.)*
- **SBC Q78260** (1720 6th Avenue), which is approximately 1/8 to 1/4 mile southwest from the subject property. *(This site is not considered a recognized environmental concern as non-generators do not presently generate hazardous waste.)*
- **Snyder General Corp.** (319 18th Street), which is approximately 1/8 to 1/4 mile west/northwest from the subject property. *(This site is not considered a recognized environmental concern as non-generators do not presently generate hazardous waste.)*

- **Kone, Inc.** (325 19th Street), which is approximately 1/8 to ¼ mile northwest from the subject property. *(This site is not considered a recognized environmental concern as non-generators do not presently generate hazardous waste.)*

US Brownfields –

The EPA's listing of Brownfields properties addressed by Cooperative Agreement Recipients and Brownfields properties addressed by targeted Brownfields Assessments.

A review of the US Brownfields list as provided by EDR has revealed that there are five US Brownfields sites within approximately 0.50 miles of the subject property. The facilities are identified as:

- **Villareal Building** (1919 5th Avenue), which is just north from the subject property. *(This site was included on this list after a Phase I Site Assessment in July 2007. The site is currently vacant. The site was developed residentially from 1886-1927. Since 1938, various commercial uses were located on the site. From 1949-1970 a drycleaner operated at the site. This site is considered a recognized environmental concern as it is directly across the street from the subject site.)*
- **O'Rourke Building** (1909 5th Avenue), which is just northwest from the subject property. *(This site was included on this list after a Phase I Site Assessment in July 2007. The site was residential from 1886 to 1922. By 1927, the site was occupied with the LeClaire Garage and Wrecker facility with residential above. To the west, a gas station was in operation from 1927-1949. To the east, a drycleaner was in operation from 1957-1970. This site is considered a recognized environmental concern as it is directly across the street from the subject site.)*
- **Enterprise Lofts** (1809-1829 River Drive), which is approximately 1/8 to ¼ mile west/northwest from the subject property. *(This site was included on this list after a Phase I Site Assessment in May 2008. The site is currently vacant with grass and trees. The parcel is located downtown adjacent to former industrial uses such as foundries, machine and tooling, and a welding company. This site is not considered a recognized environmental concern due to the distance between the Enterprise site and the subject site.)*
- **Commspec Building** (2316 5th Avenue), which is approximately ¼ to ½ mile east/northeast from the subject property. *(This site was included on this list after a Phase I Site Assessment in June 2007. The site is currently vacant which has been used for office and warehouse purposes for several decades. It is located within the Coyne Block. Over the decades, the Coyne Block has been a mix of commercial, office and light industrial uses. This site is not considered a recognized environmental concern due to the distance between the Commspec site and the subject site.)*
- **The Printing Press** (1411 6th Avenue), which is approximately ¼ to ½ mile southwest from the subject property. *(This site was included on this list after a Phase I Site Assessment in July 2007. Over the several decades the past uses of the area have included commercial and office. This site is not considered a recognized environmental concern due to the distance between the Printing Press site and the*

subject site.)

Department of Defense (DOD) –

A listing of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico and the US Virgin Islands.

A review of the DOD list as provided by EDR has revealed that there is one DOD site within approximately 1 mile of the subject property. The facility is identified as:

- **Rock Island Arsenal**, which is approximately ½ to 1 mile northwest of the subject property. *(This site is not considered a recognized environmental concern due to the proximity of the subject site and the above listed site which are separated by the Mississippi River.)*

Illinois Category List (CAT) –

The Category List includes sites on the list which are: Notice of Response Action, NPL, Pre/proposed NPL, Completed Remedial Action, Site Remediation Program, Federal facilities and Cleanup Started and/or Completed Sites.

A review of the IL CAT list as provided by EDR has revealed that there is one IL CAT site within approximately 1 mile of the subject property. The facility is identified as:

- **Deere Plow Works**, which is approximately ½ to 1 mile west of the subject property. *(This site is listed as “Clean up having been started or completed and that the site is enrolled in the State Site Remediation Program”. This site is not considered a recognized environmental concern due to proximity of Deere Plow Works and the subject site.)*

Illinois Solid Waste Facilities/Landfill Sites (SWF/LF) –

The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data comes from the Illinois Environmental Protection Agency’s Available Disposal for Solid Waste in Illinois- Solid Waste Landfills Subject to State Surcharge list.

A review of the IL SWF/LF list as provided by EDR has revealed that there is one SWF/LF site within approximately 0.5 miles of the subject property. The facility is identified as:

- **Five City Construction** (946 17th Street), which is approximately ¼ to ½ mile south of the subject property. *(This site is listed as “closed under final cover”. This site is not considered a recognized environmental concern due to proximity of Five City Construction and the subject site.)*

Leaking Underground Storage Tanks (LUST) –

The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data comes from the Illinois Environmental Protection Agency's LUST Incident Report.

A review of the LUST list as provided by EDR has revealed that there are nine LUST sites within approximately 0.5 miles of the subject property. The facilities are identified as:

- **Koelz DX Co.** (525 19th Street), which is approximately 0 to 1/8 mile southwest of the subject property. *(This site is not considered a recognized environmental concern due to the fact the site is listed as "No Further Action (NFA)" with the IEPA as of 2/7/2002.)*
- **Orvil Union 76** (428 19th Street), which is approximately 0 to 1/8 mile northwest of the subject property. *(This site is not considered a recognized environmental concern due to the fact the site is listed as "No Further Action (NFA)" with the IEPA as of 5/3/2005.)*
- **LeClaire Friendly** (1830 5th Avenue), which is approximately 0 to 1/8 mile west of the subject property. *(This site is not considered a recognized environmental concern due to the fact the site is listed as "No Further Action (NFA)" with the IEPA as of 2/23/2006.)*
- **Illinois Bell Telephone** (1726 6th Avenue), which is approximately 1/8 to 1/4 mile southwest of the subject property. *(This site is not considered a recognized environmental concern due to the fact the site is listed as "No Further Action (NFA)" with the IEPA as of 3/4/1992.)*
- **City of Moline** (1630 8th Avenue), which is approximately 1/4 to 1/2 mile south/southwest of the subject property. *(This site is listed as "Open" but is not considered a recognized environmental concern due to the proximity of the City property and the subject property.)*
- **United Methodist Church** (712 16th Street), which is approximately 1/4 to 1/2 mile southwest of the subject property. *(This site is listed as "Open" but is not considered a recognized environmental concern due to the proximity of the United Methodist Church and the subject property.)*
- **Renew Moline** (1400 3rd Avenue), which is approximately 1/4 to 1/2 mile west of the subject property. *(This site is listed as "Open" but is not considered a recognized environmental concern due to proximity of the Renew Moline property and the subject property.)*
- **Moline Consumers Co.** (2357 3rd Avenue), which is approximately 1/4 to 1/2 mile northeast of the subject property. *(This site is not considered a recognized environmental concern due to the fact the site is listed as "No Further Action (NFA)" with the IEPA as of 3/12/2008.)*
- **McLaughlin Body Co.** (2430 3rd Avenue), which is approximately 1/4 to 1/2 mile northeast of the subject property. *(This site is not considered a recognized environmental concern due to the fact the site is listed as "No Further Action (NFA)" with the IEPA as of 9/25/1998.)*

Underground Storage Tanks (UST) –

The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data comes from the Illinois State Fire Marshal's STC Facility List.

A review of the UST list as provided by EDR has revealed that there are thirteen UST sites within approximately 0.25 miles of the subject property. The facilities are identified as:

- **Koelz DX Co.** (525 19th Street), which is approximately 0 to 1/8 mile southwest of the subject property. *(This site is listed as having four tanks on site, two 4,000 gallon gasoline tanks, a 500 gallon diesel fuel tank and a 250 gallon gasoline tank, which are listed as removed as of 10/30/1996 and therefore is not considered a recognized environmental concern.)*
- **Aman Food & Gas** (1830 5th Avenue), which is approximately 0 to 1/8 mile west/southwest of the subject property. *(This site is listed as having three tanks on site, a 5,000 gallon gasoline tank, a 3,000 gallon gasoline tank and a 4,000 gallon gasoline tank, which are listed as currently in use but having valid green tags and therefore is not considered a recognized environmental concern.)*
- **Erickson Tire** (1810 5th Avenue), which is approximately 0 to 1/8 mile west/southwest of the subject property. *(This site is listed as having one tank on site, a 500 gallon used oil tank, which is listed as removed as of 4/15/1998 and therefore is not considered a recognized environmental concern.)*
- **Lundahl Motors Inc. Building** (1801 5th Avenue), which is approximately 0 to 1/8 mile west/southwest of the subject property. *(This site is listed as having one tank on site, a 275 gallon used oil tank, which is listed as removed as of 8/30/1993 and therefore is not considered a recognized environmental concern.)*
- **Firestone Garage** (1900 5th Avenue), which is approximately 0 to 1/8 mile west of the subject property. *(This site is listed as having two tanks on site, a 250 gallon kerosene tank and a 500 gallon kerosene tank, which are listed as exempt from registration and therefore is considered a recognized environmental concern due to older tanks remaining at the site and the site is adjacent to the subject site.)*
- **Orville Borkhart** (428 19th Street), which is approximately 0 to 1/8 mile northwest of the subject property. *(This site is listed as having four tanks on site, three 3,000 gallon tanks and a 560 gallon used oil tank, which are listed as removed and therefore is not considered a recognized environmental concern.)*
- **Frank Foundry Co.** (2020 3rd Avenue), which is approximately 1/8 to 1/4 mile north/northeast of the subject property. *(This site is listed as having one tank on site, a 10,000 gallon heating oil tank, which is listed as exempt from registration this site is not considered a recognized environmental concern due to proximity to the subject site.)*
- **Frank Foundries Corp.** (2020 3rd Avenue), which is approximately 1/8 to 1/4 mile north/northeast of the subject property. *(This site is listed as having one tank on site, a 560 gallon gasoline tank, which is listed as removed this site is not considered a recognized environmental concern due to proximity to the subject site.)*
- **Aggregate Equipment & Supply Co.** (2221 5th Avenue), which is approximately 1/8 to 1/4 mile east/northeast of the subject property. *(This site is listed as having two tanks on site, a 500 gallon gasoline tank and a 500 gallon diesel fuel tank, which are*

listed as removed this site is not considered a recognized environmental concern due to proximity to the subject site.)

- **Illinois Bell Telephone Co.** (1720 6th Avenue), which is approximately 1/8 to 1/4 mile southwest of the subject property. *(This site is listed as having one tank on site, a 10,000 gallon diesel fuel tank, which is listed as removed this site is not considered a recognized environmental concern due to proximity to the subject site.)*
- **Moline Post Office Main** (514 17th Street), which is approximately 1/8 to 1/4 mile west/southwest of the subject property. *(This site is listed as having one tank on site, a 10,000 gallon gasoline tank, which is listed as removed this site is not considered a recognized environmental concern due to proximity to the subject site.)*
- **Grant Building** (1615 5th Avenue), which is approximately 1/8 to 1/4 mile west/southwest of the subject property. *(This site is listed as having one tank on site, a 3,000 gallon heating oil tank, which is listed as abandoned in place this site is not considered a recognized environmental concern due to proximity to the subject site.)*
- **Montgomery Kone Inc.** (1703 River Drive), which is approximately 1/8 to 1/4 mile west/northwest of the subject property. *(This site is listed as having one tank on site, a 300 gallon heating oil tank, which is listed as exempt from registration this site is not considered a recognized environmental concern due to proximity to the subject site.)*

IL INST CONTROLS –

A listing of sites with legal or administrative restrictions on land use and/or other activities (e.g. groundwater use restrictions) which effectively limit exposure to contamination and may be employed as alternatives to removal or treatment of contamination.

A review of the IL INST CONTROLS list as provided by EDR has revealed that there are four IL INST CONTROLS sites within approximately 0.5 miles of the subject property.

The facilities are identified as:

- **Aggregate Equipment** (2221 5th Avenue), which is approximately 1/8 to 1/4 mile east/northeast of the subject property. *(This site is listed as having a groundwater use restriction.)*
- **Moline Arsenal Ramps** (NW Corner of 16th Street), which is approximately 1/4 to 1/2 mile west of the subject property. *(This site is listed as having a groundwater use restriction.)*
- **City of Moline – Moline Water Plant** (1800 1st Avenue), which is approximately 1/4 to 1/2 mile northwest of the subject property. *(This site is listed as having a groundwater use restriction.)*
- **American Air Filter** (2500 River Drive), which is approximately 1/4 to 1/2 mile northeast of the subject property. *(This site is listed as having a groundwater use restriction.)*

IL ENG CONTROLS –

A listing of sites with engineering controls in place.

A review of the IL ENG CONTROLS list as provided by EDR has revealed that there are three IL ENG CONTROLS sites within approximately 0.5 miles of the subject property.

The facilities are identified as:

- **Aggregate Equipment** (2221 5th Avenue), which is approximately 1/8 to 1/4 mile east/northeast of the subject property. *(This site is listed as having a groundwater use restriction.)*
- **Moline Arsenal Ramps** (NW Corner of 16th Street), which is approximately 1/4 to 1/2 mile west of the subject property. *(This site is listed as having a groundwater use restriction.)*
- **City of Moline – Moline Water Plant** (1800 1st Avenue), which is approximately 1/4 to 1/2 mile northwest of the subject property. *(This site is listed as having a groundwater use restriction.)*

IL Site Remediation Program (SRP) –

A listing of sites enrolled in the Illinois Environmental Protection Agency's Site Remediation Program.

A review of the IL SRP list as provided by EDR has revealed that there are six IL SRP sites within approximately 0.5 miles of the subject property. The facilities are identified as:

- **Moline Live-Work Lofts** (1809-1829 River Drive), which is approximately 1/8 to 1/4 mile west/northwest of the subject property. *(This site is listed as active in the SRP.)*
- **Aggregate Equipment** (2221 5th Avenue), which is approximately 1/8 to 1/4 mile east/northeast of the subject property. *(This site is listed as having a No Further Remediation Letter dated 7/14/2006.)*
- **Moline Arsenal Ramps** (NW Corner of 16th Street), which is approximately 1/4 to 1/2 mile west of the subject property. *(This site is listed as having a No Further Remediation Letter dated 2/2/1999.)*
- **City of Moline – Moline Water Plant** (1800 1st Avenue), which is approximately 1/4 to 1/2 mile northwest of the subject property. *(This site is listed as having a No Further Remediation Letter dated 3/24/2004.)*
- **City of Moline** (1520 River Drive), which is approximately 1/4 to 1/2 mile west of the subject property. *(This site is listed as open in the SRP.)*
- **American Air Filter** (2500 River Drive), which is approximately 1/4 to 1/2 mile northeast of the subject property. *(This site is listed as having a No Further Remediation Letter dated 5/27/2009.)*

IL Brownfields –

The Illinois Municipal Brownfields Redevelopment Grant Program (MBRGP) offers grants worth a maximum of \$240,000 each to municipalities to assist in site investigation activities, development of cleanup, objectives and performance of cleanup activities. Brownfields are abandoned or underused industrial and/or commercial properties that are contaminated (or thought to be contaminated) and have an active potential for redevelopment.

A review of the IL Brownfields list as provided by EDR has revealed that there are two IL Brownfields sites within approximately 0.5 miles of the subject property. The facilities are identified as:

- **Moline Water Plant** (1800 1st Avenue), which is approximately ¼ to ½ mile northwest of the subject property. *(This site has a planned end use of residential; this site is not considered a recognized environmental concern due to proximity of the site to the subject site.)*
- **Hendricks Property** (2500 River Drive), which is approximately ¼ to ½ mile northeast of the subject property. *(This site has a planned end use of commercial; this site is not considered a recognized environmental concern due to proximity of the site to the subject site.)*

IL Impoundment (IMPDMNT) –

The Illinois Impoundment is a statewide inventory of industrial, municipal, mining, oil and gas, and large agricultural impoundments. This study was conducted by the Illinois EPA to assess potential for contamination of shallow aquifers. This was a one-time study. Although many of the impoundments may no longer be present, the sites may be contaminated.

A review of the IL Impoundment list as provided by EDR has revealed that there is one IL Impoundment site within approximately 0.50 miles of the subject property. The facility is identified as:

- **City of Rock Island**, which is approximately ¼ to ½ mile northwest of the subject property. *(This site is listed as a municipal facility; this site is not considered a recognized environmental concern due to proximity of the site and the subject site.)*

5.31 Unplottable Sites

Seventeen sites were listed as unplotable in the EDR File Search, meaning the given address from the regulatory agency was too vague to pinpoint on a map. The unplotable sites are listed as two RCRA Non-Generator (Nongen) sites, one US Clandestine Laboratory (CDL), two Hazardous Materials Inventory Sites (HMIRS), one Illinois Drycleaners site, two Underground Storage Tank (UST) sites, two Illinois Brownfields sites, two Illinois Site Remediation Program (SRP) sites, one US Brownfields site, one WI manifest site, one solid waste facility/landfill (SWF/LF) site, and two CERCLIS-NFRAP sites. The specific names include:

American Air Filter	25 th Street & River Drive 2510 5 th Avenue Apt ½ 3200 69 th Avenue 3501 69 th Avenue	RCRA Non-gen US CDL HMIRS HMIRS
Burke Cleaners	3024 23 rd Avenue	IL Drycleaners
La James College	5310 23 rd Avenue	IL UST
IL DOT	Bridges on I-74 in Moline	RCRA Non-gen
Bass Street Landing	NW Corner River Drive/17 th St.	IL Brownfields
Bus Transfer Property	NE Corner 11 th Street/5 th Avenue	IL Brownfields
Bass Street Landing	NW Corner River Drive/17 th St.	SRP
Berglund Lofts	1317-1321 5 th Avenue	US Brownfields
Harrington Signal Co.	2519 4 th Avenue	WI Manifest
William C Flick, Sr.	RR 1	IL SWF/LF
Former Pavilion #2 Trinity Medical Center	7 th Street	IL UST
Sylvan Works	2 nd Street	CERC-NFRAP
Pettifer Island	Rock & Mississippi River	CERC-NFRAP
Wiley Property	4325 3 rd Avenue	SRP

From the review of this list, the unplotable sites listed above are not located within the immediate vicinity of the subject property and therefore are not considered to be recognized environmental concerns.

Additional information

a Phase I Environmental Site Assessment that was prepared for the City of Moline in June 2007 was available for public use on the web and select pages from the report which pertain to historic recognized environmental conditions in connection with Berry Bearing, the O'Rourke Building and the Villareal Building have been included in *Appendix E*.

6.00 INFORMATION FROM SITE RECONNAISSANCE

Visual observation of the subject property was performed on September 28, 2009 by Jennifer Radloff of Shive-Hattery, Inc. Representative photographs taken during the evaluation are provided in *Appendix B*. It shall be noted that the visual inspection was completed from outside the fenced area due to safety reasons.

6.10 Current Use(s) of the Property

The subject property is currently vacant.

6.11 Past Use(s) of the Property

According to readily available records and interviews, the subject property was built in the 1960's as a grocery store and then has been utilized since the late 1970's by Berry Bearing for parts sales and office and warehouse space. Berry Bearing moved out of the subject site in May 2009. Prior to the 1960's the subject property was used for residential purposes.

6.12 Current Use(s) of Adjoining Property

The adjoining properties to the Subject property are used for various purposes, for more in depth information please see Section 3.20 for more detail.

6.13 Past Use(s) of Adjoining Property

The adjoining properties to the Subject property were used for various purposes, which included industrial uses, residential uses and retail use.

6.14 Current or Past Use(s) in the Surrounding Area

The adjoining properties to the Subject property are used for various purposes, as stated above.

6.15 Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions

The general topography of the subject property is flat with a slight slope toward the north/northwest. According to the USGS topographic map it appears groundwater flow would generally be to the north/northwest as well towards the Mississippi River.

6.16 General Description of Structures and Other Improvements on the Subject property

The subject property is located in a mixed use area of Moline; the subject property is owned by Moline Consumers.

6.17 Description of Roads

5th Avenue is located to the north of the site and concrete alley is located to the south. There is not a thoroughfare to the east or west of the subject facility.

6.18 Description of Potable Water Supply

Potable water at the subject facility is provided by the City of Moline.

6.19 Description of Sewage Disposal System

The sewer system for the subject facility is provided by the City of Moline.

- 6.20 Hazardous Substances and Petroleum Products in Connection with Identified Uses**
No visible hazardous substances and/or petroleum substances were identified at the subject facility during the site visit on September 28, 2009.
- 6.21 Storage Tanks**
Vents or fill-pipes indicative of the presence of USTs on the subject property were not visually observed during the site visit on September 28, 2009.
- 6.22 Odors**
Strong, pungent, or noxious odors were not noted and/or observed during the site visit on September 28, 2009.
- 6.23 Pools of Liquid**
No areas of pooled liquid were noted during the site visit on September 28, 2009.
- 6.24 Drums**
Drums were not visually and/or physically observed during the site visit.
- 6.25 Hazardous Substance and Petroleum Products Containers (Not Necessarily in Connection with Identified Uses)**
No hazardous materials or hazardous substance storage was visibly noted or observed during the site visit on September 28, 2009.
- 6.26 Unidentified Substance Containers**
No unidentified substance storage was visibly noted or observed during the site visit on September 28, 2009.
- 6.27 Poly Chloride Biphenyls (PCBs)**
Electrical and hydraulic equipment are known to contain PCB's. There were several overhead transformers located off the south side of the subject property but the equipment appeared to be in good condition.

Interior Observations

- 6.28 Heating/Cooling**
Heating and cooling of the original building is by forced air/boilers; heating of the precast building is by an overhead furnace and there is no cooling for the precast portion of the subject site.
- 6.29 Stains/Corrosion**
No areas of significant staining were visually identified at the subject site on September 28, 2009.
- 6.30 Drains and Sumps**
A drain and sump pit were noted in the lower level of the original building. The sump pit was located in the northwest corner of the lower level room and the drain was located along the east wall of the lower level. Some standing water was noted on the floor in the lower level of the building during the site visit.

6.31 Asbestos

Several suspect asbestos containing building materials were noted during the site visit on September 28, 2009. Some of the areas of pipe wrap appeared in poor condition and should be abated prior to new tenants to avoid health hazards.

Exterior Observations

6.31 Pits, Ponds, or Lagoons

No pits, ponds or lagoons were visually identified/observed at the subject property.

6.32 Stained Soil or Pavement

No stained soil or pavement was visually observed at the subject property on September 28, 2009.

6.33 Stressed Vegetation

During the visual observation of the property, no stressed vegetation was observed at the subject property.

6.34 Solid Waste

Signs indicating the presence of waste disposal on the property were not visually identified/observed during the site visit at the subject property.

6.35 Wastewater

No wastewater or other liquid was visually identified during the site visit at the subject property.

6.36 Wells

No wells were visually identified during the site visit or reported for the subject facility by the site contact.

6.37 Septic Systems

No septic systems were visually identified during the site visit or reported for the subject facility by the site contact.

7.00 INTERVIEWS

7.10 City Government Officials

Moline Fire Department

The Moline Fire Department was contacted regarding the environmental condition of the subject property. No information was available for the subject site.

7.10 State Government Officials

Illinois Environmental Protection Agency (IEPA)

Since the file search identified regulated sites the IEPA was contacted. The IEPA is only able to state if tanks had been removed from the facilities, if tanks were active or if the sites had been given a No Further Action (NFA) status.

7.20 Owners Representative

Eric Droessler, site representative from RiverStone who gave the tour of the building, stated the property had been owned by RiverStone/Moline Consumers since the 1970's and had been leased the entire time by Berry Bearing until they moved out in May 2009. Mr. Droessler stated, to the best of his knowledge, that he was unaware of any environmental concerns at the subject site or surrounding property except for the north wall having termites which were treated through injection within the last few months and several areas of asbestos pipe wrap.

8.00 FINDINGS

We have performed a Phase I Environmental Site Assessment in general conformance with the Scope and Limitations of ASTM Standard Practice E 1527-05 for the property at 1920 5th Avenue in Moline, Illinois. Any exceptions to, or deletions from, this practice are described within the report.

Based on the review of available information and observations made during the Site evaluation, the environmental concerns have been identified at this time,

- Several surrounding properties are listed as Illinois Brownfields sites or are listed as being part of the Illinois Site Remediation Program (SRP)
- There are three leaking underground storage tank (LUST) sites within the immediate vicinity of the subject property.
- The past tenant of the subject building is considered a recognized environmental concern.
- The subject property has numerous areas of suspect asbestos containing materials.

The conclusions and recommendations stated in this report are based on readily available information. This does not imply that Shive-Hattery, Inc. has obtained all information that exists which may be pertinent to this property.

9.00 OPINION

Based on the review of available information and observations made during the Site evaluation for the property at 1920 5th Avenue in Moline, Illinois, the following is an opinion of the subject property:

- Several surrounding properties are listed as Illinois Brownfields sites or are listed as being part of the Illinois Site Remediation Program (SRP)
- There are three leaking underground storage tank (LUST) sites within the immediate vicinity of the subject property.
- The past tenant of the subject building is considered a recognized environmental concern.
- The subject property has numerous areas of suspect asbestos containing materials. It is recommended that proper protocol be following during any renovation/demolition projects.

The conclusions and recommendations stated in this report are based on readily available information. The study was not intended to be an exhaustive search for all potential hazards, which may exist.

10.00 CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in general conformance with the Scope and Limitations of ASTM Standard Practice E 1527-05 for the property at 1920 5th Avenue in Moline, Illinois. Any exceptions to, or deletions from, this practice are described within the report.

Based on the scope of services, limitations and findings, this assessment has revealed evidence of several recognized environmental conditions in connection with the subject property. Shive-Hattery recommends additional investigation to determine if the site soil and/or groundwater has been impacted by the former adjacent gasoline/filling stations and adjacent Brownfields sites and Site Remediation program sites. In addition it is required that any renovation or demolition activities planned for the site follow proper protocol for asbestos sampling/abatement.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in *bold italics* are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site List

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 06/23/2009 has revealed that there is 1 CERC-NFRAP site within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 11/12/2008 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
PRECISION CAR CARE	1900 5TH AVE	W 0 - 1/8 (0.027 mi.)	A4	11

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 11/12/2008 has revealed that there are 2 RCRA-CESQG sites within approximately 0.25 miles of the target property.

State and tribal landfill and/or solid waste disposal site lists

IL SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Illinois Environmental Protection Agency's Available Disposal for Solid Waste in Illinois--Solid Waste Landfills Subject to State Surcharge list.

A review of the IL SWF/LF list, as provided by EDR, and dated 12/01/2007 has revealed that there is 1 IL SWF/LF site within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

State and tribal Brownfields sites

IL BROWNFIELDS: The Illinois Municipal Brownfields Redevelopment Grant Program (MBRGP) offers grants worth a maximum of \$240,000 each to municipalities to assist in site investigation activities, development of cleanup, objectives and performance of cleanup activities. Brownfields are abandoned or underused industrial and/or commercial properties that are contaminated (or thought to be contaminated) and have an active potential for redevelopment.

A review of the IL BROWNFIELDS list, as provided by EDR, and dated 06/29/2009 has revealed that there are 2 IL BROWNFIELDS sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA-NonGen: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA-NonGen list, as provided by EDR, and dated 11/12/2008 has revealed that there are 5 RCRA-NonGen sites within approximately 0.25 miles of the target property.

DOD: Consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

A review of the DOD list, as provided by EDR, and dated 12/31/2005 has revealed that there is 1 DOD site within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
ROCK ISLAND ARSENAL		NW 1/2 - 1 (0.597 mi.)	0	7

EXECUTIVE SUMMARY

IL IMPDMENT: Statewide inventory of industrial, municipal, mining, oil & gas , and large agricultural impoundment. This study was conducted by the Illinois EPA to assess potential for contamination of shallow aquifers. This was a one-time study. Although many of the impoundments may no longer be present, the sites may be contaminated.

A review of the IL IMPDMENT list, as provided by EDR, and dated 12/31/1980 has revealed that there is 1 IL IMPDMENT site within approximately 0.5 miles of the target property.

Hazardous Waste Summary:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: F001
Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLOROETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE, AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste code: F002
Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROENZENE, TRICHLOROFUOROMETHANE, AND 1,1,2-TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE LISTED IN F001, F004, OR F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste code: F003
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste code: F005
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS

LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH; IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Environmental Interest/Information System

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 User oil refiner: No
 Used oil fuel marketer to burner: No
 Used oil Specification marketer: No
 Used oil transfer facility: No
 Used oil transporter: No
 Off-site waste receiver: Commercial status unknown

Hazardous Waste Summary:

Waste code: D000
 Waste name: Not Defined

Waste code: D001
 Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002
 Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Environmental Interest/Information System

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 06/29/2009	Source: EPA
Date Data Arrived at EDR: 07/31/2009	Telephone: N/A
Date Made Active in Reports: 09/21/2009	Last EDR Contact: 09/10/2009
Number of Days to Update: 52	Next Scheduled EDR Contact: 10/26/2009
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 06/29/2009	Source: EPA
Date Data Arrived at EDR: 07/31/2009	Telephone: N/A
Date Made Active in Reports: 09/21/2009	Last EDR Contact: 09/10/2009
Number of Days to Update: 52	Next Scheduled EDR Contact: 10/26/2009

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 06/30/2009	Source: EPA
Date Data Arrived at EDR: 08/11/2009	Telephone: 703-412-9810
Date Made Active in Reports: 09/21/2009	Last EDR Contact: 09/10/2009
Number of Days to Update: 41	Next Scheduled EDR Contact: 10/12/2009
	Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 06/23/2009	Source: EPA
Date Data Arrived at EDR: 09/02/2009	Telephone: 703-412-9810

	Data Release Frequency: Quarterly

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Transporters, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

IL LF SPECIAL WASTE: Special Waste Site List

These landfills, as of January 1, 1990, accept non-hazardous special waste pursuant to the Illinois EPA Non-Hazardous Special Waste Definition. List A includes landfills that may receive any non-hazardous waste, Non-Regional Pollution Control Facilities are so noted. List B includes landfills designed to receive specific non-hazardous wastes. List B landfills are designated as a Regional Pollution Control Facility by RPCF, or Non-Regional Pollution Control Facility by Non-RPCF.

Date of Government Version: 01/01/1990	Source: Illinois EPA
Date Data Arrived at EDR: 06/17/2009	Telephone: 217-782-9288
Date Made Active in Reports: 07/15/2009	Last EDR Contact: 06/10/2009
Number of Days to Update: 28	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

IL NIPC: Solid Waste Landfill Inventory

Solid Waste Landfill Inventory. NIPC is an inventory of active and inactive solid waste disposal sites, based on state, local government and historical archive data. Included are numerous sites which previously had never been identified largely because there was no obligation to register such sites prior to 1971.

Date of Government Version: 08/01/1988	Source: Northeastern Illinois Planning Commission
Date Data Arrived at EDR: 08/01/1994	Telephone: 312-454-0400

	Data Release Frequency: Quarterly

IL LUST TRUST: Underground Storage Tank Fund Payment Priority List

In case sufficient funds are not available in the Underground Storage Tank Fund, requests for payment are entered on the Payment Priority List by "queue date" order. As required by the Environmental Protection Act, the queue date is the date that a complete request for partial or final payment was received by the Agency. The queue date is "officially" confirmed at the end of the payment review process when a Final Decision Letter is sent to the site owner.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Date of Government Version: 10/01/2008	Source: Environmental Protection Agency

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

US HIST CDL: National Clandestine Laboratory Register

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2007
Date Data Arrived at EDR: 08/26/2009

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data

Source: PennWell Corporation

Telephone: (800) 823-6277

This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Homes & Centers Listing

Source: Department of Children & Family Services

Telephone: 312-814-4150

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

--	--

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data:*

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Muscatune

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	16 inches	silt loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
2	22 inches	46 inches	silty clay loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
3	46 inches	59 inches	silt loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1
4	16 inches	22 inches	silty clay loam	Not reported	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14.11 Min: 4.23	Max: 7.3 Min: 5.1

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

ADDITIONAL INFORMATION

WARRANTY DEED, Statutory Form
STATE OF ILLINOIS, Rock Island County, ss.

Filed and Recorded 763831 January 17, 1975 at 10:45 o'clock A.M. Fee \$ 5.00

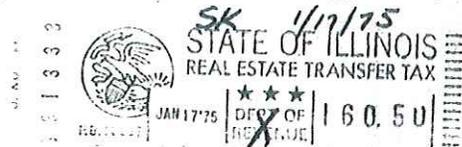

C. R. Dick Craig Recorder of Deeds.

This Indenture Witnesseth That the Grantors, Carl W. Peterson and Dorothy M. Peterson, Husband and Wife, each in his and her own right and as husband and wife, of the City of Moline in the County of Rock Island and State of Illinois for and in consideration of the sum of One Dollar and other good and valuable consideration in hand paid, CONVEY and WARRANT to Moline Consumers Company, an Illinois corporation of the City of Moline County of Rock Island and State of Illinois, the following described real estate, to-wit:

Lots Number Two (2) and Three (3) and the East Twenty (20) Feet of Lot Number Four (4) in Block Number Nine (9) in that part of the City of Moline known as and called Wood's Third Addition to said City, situated in the County of Rock Island and State of Illinois,

and

The West half of Lot Number Six (6) in Block Number Nine (9) in that part of the City of Moline known as and called Wood's Third Addition to said City, situated in Rock Island County, Illinois

ROCK ISLAND COUNTY, ILL.

situated in the County of Rock Island, in the State of Illinois, hereby releasing and waiving all rights under and by virtue of the Homestead Exemption Laws of the State of Illinois.

This instrument was prepared by Francis J. Coyle, Attorney 305 First National Bank Building Rock Island, Illinois 61201

Dated this 6th day of January A. D. 1975
Carl W. Peterson (Seal)
Dorothy M. Peterson (Seal)

STATE OF ILLINOIS } ss.
Rock Island County }

I, the undersigned, a Notary Public, in and for said County and State, aforesaid, DO HEREBY CERTIFY, that

Carl W. Peterson and Dorothy M. Peterson, husband and wife, each in his and her own right and as husband and wife

personally known to me to be the same persons...whose name...are...subscribed to the foregoing instrument, appeared before me this day in person and acknowledged that...he...signed, sealed and delivered said instrument as...the...free and voluntary act, for the uses and purposes therein set forth, including the release and waiver of the right of homestead.

Given under my hand and notarial seal this 6th day of January, A. D. 19 75

Frank Erickson Notary Public.

This is a legal instrument and should be executed under the guidance and supervision of an attorney.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
PROPOSED MOLINE LIVE-WORK LOFTS
1809-1829 RIVER DRIVE
MOLINE, ROCK ISLAND COUNTY, ILLINOIS

Project No. 07067060
Report Date: June 25, 2008

EXECUTIVE SUMMARY

This Phase I ESA was performed in accordance with our Professional Services Agreement dated November 20, 2006, and was conducted consistent with the procedures included in ASTM E 1527-05, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The ESA was conducted under the supervision or responsible charge of John F. Brimeyer, PE, environmental professional. J. David Wildharber performed the site reconnaissance on May 20, 2008.

A cursory summary of findings is provided below. It should be recognized that details were not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

- The site is located at 1809-1829 River Drive in Moline, Rock Island County, Illinois. The site is comprised of two parcels totaling approximately 0.76 acres and is currently vacant land.
- The visual reconnaissance did not identify RECs to the site.
- Based on review of the historical information, the site was used residentially from 1886 to 1957. A parking lot, a flat, one outbuilding, and one dwelling were depicted on the 1967 Sanborn map. One outbuilding and a parking lot were depicted on the 1970 Sanborn map. The site appears to have been owned by several manufacturing facilities, but according to historical interview information was not used for manufacturing purposes.

The review of historical information revealed that several industrial facilities have historically operated in close proximity to the site. Facilities included several foundries, a printing company, a painting facility, an auto repair facility, a machine and tooling company, a welding company, a bearing company, a filling station, a laundry and dry cleaner, a plow company, and the City of Moline Street Department. The historic facilities constitute RECs to the site.

- Adjoining properties consisted of vacant land and a parking lot to the adjoining north, vacant land and an Interstate 74 bridge to the adjoining east, and Kone to the south and west. The adjoining property reconnaissance did not identify RECs to the site.

The following facilities were identified at 1800 River Drive: Berry Bearing Company in 1975 and Industrial Sales in 1982. See Section 4.1 for additional information regarding Industrial Sales. Berry Bearing Company (under another name) was depicted on Sanborn maps in 1967 and 1970. The industrial bearing company constitutes a REC to the site.

DeSaulnier's Printers were identified one block west and northwest of the site from 1919 to 1992. A filling station was also identified in this block in 1930. Based on proximity to the site, the facilities constitute a REC to the site.

Moline Water Works was identified at 30 18th Street from 1935 to 2007. See Section 4.1 for additional information.

Kone operated approximately 300 feet northwest of the site from 1975 to 1997 (1967 to 1970 on Sanborn maps). The facility is expected to be down-gradient relative to the site and does not appear to constitute a REC to the site.

The Moline Family Laundry was identified at 1730-1732 3rd Avenue from 1919 to 1945 (and 1950 to 1957 on Sanborn maps). Additionally, Egemo Dry Cleaner was identified at 311 18th Street in 1945 (and 1950 to 1957 on Sanborn maps). Based on proximity to the site, the facilities constitute RECs to the site.

Moline Plow was identified at 1709 to 1731 4th Avenue from 1919 to 1925 and on the 1912 Sanborn map. The facility was identified as International Harvester on the 1950 and 1957 Sanborn maps. Based on proximity to the site, the facilities constitute RECs to the site.

Deere & Company was listed at 400 19th Street from 1935 to 1945 and 1975-2007. The facility was identified in the EDR report as a USEPA RCRA-SQG without reported violations. Based on regulatory status, the facility does not constitute a REC to the site.

Orville's Union 76/Standard Service Station and Mike's Automotive were identified at 428 19th Street. The facilities are discussed further in Section 4.1.

Several additional filling stations were listed near the intersections of 5th Avenue and 18th and 19th Streets. Based on distance, the facilities do not appear to constitute RECs to the site.

Franks Foundries was identified at 2001 1st Avenue and 2020 3rd Avenue from 1925 to 1992. See Section 4.1 for additional information.

In addition to the above ASTM-required listings, Terracon reviewed other federal, state, local and proprietary databases provided by the database firm. A list of the additional reviewed databases is included in the regulatory database report included in Appendix D.

The following table summarizes the site-specific information provided by the database and/or gathered by this office for identified facilities. Facilities are listed in order of proximity to the subject site. Additional discussion for selected facilities may follow the summary table.

Listed Facilities

Facility Name and Location	Estimated Distance/Direction/Gradient	Database Listings
