A. Executive Summary

The City is a recipient of Community Development Block Grant funds provided through the Department of Housing and Urban Development (“HUD”) on a formula basis. As a recipient of these funds, the City is required to prepare a five-year Consolidated Plan that identifies housing and community development needs, prioritizes these needs, identifies resources to address these needs, and establishes goals and objectives to meet those needs. At the conclusion of each program year, the City is required to provide the public, and HUD, with an assessment of its accomplishments. This annual assessment is known as the Consolidated Annual Performance and Evaluation Report (“CAPER”).

This CAPER has been prepared to meet HUD’s requirements for an annual performance evaluation. It is an accomplishment summary of the City of Moline’s management and allocation of federal resources received from HUD. This document provides a review and evaluation of the City’s performance for fiscal year 2014 within the five-year time frame of the 2010-2014 Consolidated Plan. This report also includes the PR03 Report which provides a recap of expenditures and accomplishments at the activity level for approved Program Year 2014 CDBG projects. The information is generated from the HUD Integrated Disbursement and Information System (“IDIS”) database for HUD and citizen review.

During the 2014 reporting period, the City utilized Lead Hazard Control dollars to make twenty-two housing units lead safe; constructed and sold two homes to a low/moderate income household through the Neighborhood Stabilization Program 2 grant; rehabilitated two homes with IHDA’s Single Family Owner-occupied Rehabilitation Program; assisted one homebuyer with acquisition and rehabilitation assistance through the Trust Fund Homebuyer with Rehabilitation Program; and continued its efforts to address the priority housing and community needs identified in the 2010-2014 Consolidated Plan. The City’s supply of affordable housing was expanded and upgraded during the reporting period by leveraging federal and state resources. These resources allotted for the rehabilitation of thirty low to moderate income owner-occupied housing units.

The City also received Home Investment Partnerships (HOME) funds and Trust Fund dollars from IHDA to further accomplish the performance outcomes identified in the 2010-2014 Consolidated Plan and the Annual Action Plan. This report also pertains to planned and actual accomplishments for the fifth year (FY-2014) Action Plan of the City’s five-year Consolidated Plan (Program Years 2010-2014).

The dollar amount of Federal Funds that were expended by the City for FY 2014 reporting period can be seen in the following table:

Federal Grant	Grant Award	Amount Expended During fiscal year 2014
Community Development Block Grant	\$709,819.00	\$591,718.38
HUD Lead Hazard Control Grant	\$2,500,000.00	\$528,356.88
HUD Neighborhood Stabilization Program 2	\$3,765,230.49	\$461,235.23
Abandoned Properties Program*	\$58,909.40	\$1,212.67
HOME Single Family Owner-Occupied Rehab Program*	\$168,000.00	\$53,774.85
Trust Fund Emergency Repair Program*	\$217,350.00	\$375.00
Trust Fund Homebuyer Rehabilitation Assistance Program	\$504,000.00	\$22,192.40

*Grant award funded through the Illinois Housing Development Authority

These funds were expended on activities aimed at meeting the many challenges faced by the City of Moline to preserve the availability and sustainability of quality affordable housing. Identified in the following program information and project narratives are outcome performance measures as defined in the Consolidated Plan and the City's efforts in achieving the expected outcome.

The City of Moline identified seven areas to accomplish the goals and respond to the needs expressed in the Community Needs Profile of the Consolidated Plan. The following is a summary of the programs and activities that the City of Moline pursued for each of the priority areas during FY14.

Infrastructure Improvements:

Provide funding to update/add infrastructure improvements to promote development and increase housing opportunities within the City of Moline.

Program:	Hawk Hollow Sidewalk Program
Activities:	Water/Sewer Improvements Sidewalks
Funds Budgeted:	\$351,770.57
Number of persons assisted:	24
Objective:	Suitable Living Environment
Outcome Category:	Sustainability

Project Narrative:

Hawk Hollow: is located in Census Tract 223. The City of Moline plans to use CDBG funds to complete the infrastructure in the undeveloped area of Moline at 4th Avenue and 8th Street. CDBG funds were utilized in 2014 to hire the professional service aspect of the redevelopment plan. Infrastructure will be used to encourage the development of new housing. The City found a local developer that has knowledge of the area but whose main interest is creating new housing opportunities within the city. Once the infrastructure improvements have been completed, the developer will build five three-unit structures. The City and the developer will enter into an agreement in mid-2015.

The Sidewalk Program: provides an opportunity for citizens in eligible low-to-moderate areas to take advantage of improving their property with funds available through CDBG as well as in conjunction with an already established program within the City of Moline's Engineering Department. The City offers a sidewalk replacement program for sidewalks in need of repair. The City will pay 75% of the cost to repair a hazardous sidewalk, with the property owner paying the remaining 25%. Citizens meeting eligibility requirements were able to have their 25% portion covered by CDBG through this activity.

Anti-Crime Programs:

Anti-crime programs are meant to provide crime prevention education, community awareness, and enhancement of police services to areas of increased criminal activity.

Due to budget constraints and recent HUD guidance on eligible activities, reporting and income verification, the City did not utilize CDBG funds to financially support any anti-crime programs. The agencies which the City had funded with CDBG funds in the past did not have the wherewithal to meet HUD's regulations on providing various, required, documentation, however, the City's C.O.P office located in the Floreciente neighborhood, is leveraged with General Fund dollars and continues to operate on a daily basis in working towards the goals that the City set forth in its Consolidated Plan.

One of Moline's oldest neighborhoods is the Floreciente District. Since 1994, the Police Department has had a community oriented policing ("C.O.P.") substation in the neighborhood that is staffed by two full-time police officers. In addition to the C.O.P. officers, residents and other groups regularly utilize the facility for meetings and/or events. The Floreciente C.O.P. office works towards the goal of improving the quality of life for neighborhood residents. The officers involved in the C.O.P. program have developed programs for residents and work closely with the community on service-related issues. Their budget has benefited the residents of the community, in a low-to-moderate income neighborhood, with a crime program that has focused on providing alternatives to residents in an effort to eliminate crime activity/participation. The area covered by the Floreciente C.O.P. has experienced an unhealthy amount of criminal activity over the years. Without the C.O.P. substation, the crime rate would be drastically higher.

Public Services:

Human and social service needs for youth, elderly and special needs through site improvements, rent assistance, transportation and equipment.

Due to budget constraints and recent HUD guidance on reporting and income verification, the City did not utilize CDBG funds to financially support any Public Services. The agencies which the City had funded with CDBG funds in the past did not have the wherewithal to meet HUD's regulations on providing various, required, documentation. Those issues, along with the timing of HUD's release of grant allocations, did not allow for enough time for funds to be spent in a timely manner.

It is the City's hope that agencies that have the wherewithal, such as Salvation Army, are able to apply for CDBG funding in the future and continue to work towards the needs of the community in the form of public services.

Economic Development:

The City of Moline has made major improvements to the downtown area. A large portion of Downtown Moline is located in an eligible, low-to-moderate census tract area, and the City of Moline has made this area a high priority in terms of development and maintenance. Creating new jobs and retaining current jobs is also a priority.

While CDBG funds were not used specifically to fund an Economic Development program and/or activity, leveraging funds through programs such as Hawk Hollow and the Sidewalk Program are allowing areas in low-to-moderate census tracts to become site improved, construction-ready and more appealing to development, and safer places for residents to commute by vehicle and foot.

The City also had General Fund dollars available through a Façade Program in which numerous businesses in the downtown/eligible census tract area were assisted to make improvements to the exterior of their buildings. This coincides with the City’s Consolidated Plan and the focus on economic development.

Planning and Administration:

Program:	CHS Service Delivery
Activities:	Administration
Funds Budgeted:	\$140,000.00
Number of persons assisted:	N/A

Program Narrative:

Assist in providing customer assistance for the Community Housing Services (“CHS”) Program that includes the following tasks and activities:

1. Working with contractors and inspectors;
2. Assisting homeowners through the application process, including income verification
3. Holding preconstruction meetings to clarify specification, bidding process, project progress, payouts, etc., as well as equipment and supplies utilized.

All of the above activities are identified as program soft costs.

Program:	General CDBG Administration
Activities:	Administration
Funds Budgeted:	\$141,963.80
Number of persons assisted:	N/A

Project Narrative:

The allocation provided funding for at least three (3) of the Planning and Development Department’s employees. The allocated funds also reimbursed the City for any clerical expenses required to maintain continuing capacity for planning, managing, monitoring, and evaluating the CDBG Program pursuant to Federal statutes and regulations, thereby ensuring compliance with Program requirements.

Program:	Code Compliance
Activities:	Clearance & Demolition
Funds Budgeted:	\$33,500
Number of persons assisted:	Unknown
Objective:	Suitable Living Environment, Decent Housing
Outcome Category:	Sustainability, Availability/Accessibility, Affordability

Project Narrative:

The Planning and Development Department, in part, funds the Neighborhood Improvement Officer in an effort to deter slum and blighted conditions in neighborhoods through regular property inspections and citations issued, if warranted. In addition, the Neighborhood Improvement Officer also schedules demolition activities related to the Neighborhood Abatement Program that is funded through CDBG and is geared towards eliminating blight on a spot basis national objective.

Housing:

Program:	CHS Program
Activities:	Housing
Funds Budgeted:	\$529,345.13
Number of persons assisted:	24
Objective:	Decent Housing Suitable Living Environment
Outcome Category:	Availability/Accessibility/ Affordability/Sustainability

Project Narrative:

This Program provides assistance for re-investment in the City's existing owner-occupied housing stock, revitalizing neighborhoods, and maintaining/increasing property values. The funds were used for substantial housing repairs for low-to-moderate income residents. The Program is designed to aid and assist low-or-moderate income homeowner-occupants with eligible rehab assistance such as: installation of ADA accessible equipment, furnace and water heater replacements, roofs, and electrical improvements, as well as roof repair and/or replacement which reduce the potential for the creation of slum and blighted conditions in Moline neighborhoods, as well as provide homeowners with a sustainable home. There is a three to five year waiting list period for this program.

Program:	CHS Program - Emergency
Activities:	Housing
Funds Budgeted:	\$64,162.50
Number of persons assisted:	6
Objective:	Decent Housing
Outcome Category:	Availability/Accessibility/ Affordability/Sustainability

Project Narrative:

This Program provides assistance for re-investment in the City's existing owner-occupied housing stock, revitalizing neighborhoods, and maintaining/increasing property values. The funds were used for emergency repairs for low-to-moderate income residents. The Program is designed to aid and assist low or moderate income homeowner-occupants with eligible emergency repair items such as: accessibility, frozen water lines, furnace replacement (Oct. 1 – Mar. 31), certain roof repairs, sewer line breaks, or medical emergencies. The City operates this Program under the understanding that these emergency criteria are solely based on the City's Program and it may not meet HUD's definition of emergency, however, all environmental reviews are completed according to CFR Part 58.

Program:	Neighborhood Abatement Program
Activities:	Neighborhood Improvement
Funds Budgeted:	\$16,056.09
Number of persons assisted:	4
Objective:	Suitable Living Environment
Outcome Category:	Sustainability

Project Narrative:

The Neighborhood Abatement Program is headed by the City's Neighborhood Improvement Officer. This Program allows for the City to work hand-in-hand with neighbors and property owners who have substandard, dangerous, and/or dilapidated garages, and are under a Notice and Order to Correct. This Program allows the City to obtain the necessary approval to obtain bids and demolish the dilapidated garages on a spot basis. This Program allows for the City to reduce blight and increase the value of life in neighborhoods.

Barriers to Achieving Outcomes

While the City has been effective in implementing CDBG projects and achieving meaningful outcomes, certain barriers to achieving outcomes do arise from time to time. Barriers identified include the following:

- Weather – The harsh winter elements that this area typically experiences during the months of November through February can cause substantial delays in the completion of housing rehabilitation projects. A combination of almost 20 inches of snow in January and February 2014 kept contractors from completing outside work such as roofs, gutters,

soffit and fascia. Cold temperatures during the winter months were also an issue for items such as exterior painting and concrete work. The City's sidewalk program partially funded through CDBG ended earlier than expected and approximately 60 locations were not able to receive the assistance necessary to repair or replace dangerous and/or substandard sidewalks.

- Limited number of months to spend funds – Based on the timing of the City's fiscal year, the timing of Congressional budget approval, and the subsequent issuance of grant agreements and spending authorization, the available time for the City – especially its subrecipients - to expense funds during the program year, and especially its subrecipients, becomes compressed to the point where challenges can arise in spending funds prior to year end. For the most part, it is out of the City's control to minimize or eliminate this barrier; however, the City has communicated and will continue to communicate to its subrecipients the importance of being prepared to implement funded programs and activities in a timely manner.
- Cuts in funding – Even though the City of Moline experienced a slight increase in funding for PY 2014, the overall reduction in CDBG funding over the past several years has limited the number and scope of overall program outcomes. Unfortunately, it is out of the control of the City, in terms of taking steps to overcome such a barrier, but the City is adjusting and “rightsizing” its Programs as needed.
- Limited pool of contractors (especially for lead-based paint work) – Single-Family Owner-Occupied Housing Rehabilitation is a primary Program for the City in terms of CDBG funding and maintaining the supply of decent, safe, and affordable housing for low-income households. At times, depending on the amount of contract work that is taking place within the metro area; available contractors for CDBG-funded rehabilitation activities can be limited. The City continues to work to identify and educate new contractors about the Program. The City has also participated in specialty training in lead-based paint procedures to help increase the available pool of trained and certified contractors.

B. Narratives - (24 CFR 91.520)

(1) Assessment of Three- to Five-Year Goals and Objectives

The following demonstrates the activities undertaken during the program year and are pertinent Strategic Plan objectives and areas of high priority.

Housing

A successful CHS Program or any housing program is contingent on matching available resources with the needs of the populace for which it serves. The City of Moline's CHS Program and CHS Emergency Program have become important vehicles to enhance and stabilize residential properties in Moline. The Programs, in one form or another, have been serving the community for 40 years by providing housing rehabilitation assistance to low-to-moderate income families and individuals. The reinvestment in existing housing stock, revitalization of

old neighborhoods, increase in property values and pride in homeownership has bolstered a strong working relationship between Moline residents and City staff. The allocation of Community Development Block Grant (CDBG) funds has contributed to this effort and will continue to assist in providing affordable housing, neighborhood stabilization, and an adequate supply and home ownership opportunities. The CDBG Activity Summary Report provides a brief description on page 33.

The following table illustrates the various types of rehabilitation work completed in the housing stock identified above:

*Units are not limited to one single rehab item, as long as the amount doesn't exceed \$15,000 - Unit can be assisted with multiple items

Total Housing Rehabilitation Dollars Spent **\$304,325.00**

The City of Moline Housing Program also provided technical assistance to first time homebuyers in the form of translations of legal documents, homeowner information counseling and relevant material to Spanish speaking individuals and families.

The City provided one Certificate of Consistency: Moline Housing Authority. The Certification of Consistency certifies that the proposed activities/projects in the application are consistent with the City of Moline's current and approved Consolidated Plan.

Homeless

As in previous years the City of Moline, in conjunction with various groups and agencies, has offered services and/or provided funding to serve special needs population groups such as the

homeless and those with threatened with becoming homeless, elderly, physically and mentally disabled victims of domestic violence and persons suffering from substance abuse. Further, the City of Moline has continued to address special groups through the CHS Program by providing housing modifications needed to address accessibility issues.

Accessibility

Rock Island County Senior Service (“Project NOW”) enhances accessibility for the mobility-challenged. The program served approximately 354 senior citizens on fixed incomes that were transported to meal sites, medical appointments, grocery shopping, and social services. Their physical condition often necessitates the assistance of Project NOW drivers to and from their destination. The Program operates on a donation basis and no one is denied service for inability to pay.

Historic Preservation

Planning and Development staff continued monitoring the restoration status of the John Deere House as well as several other historic properties within the community. The City also maintains an active Historic Preservation Commission (“HPC”) in which the Community Development Division provides staff support to the commission. The HPC has been an Illinois Certified Local Government under the auspices of the Illinois Historic Preservation Agency since 1994. It is worth noting that the City’s Annual Certified Local Government Report (on local preservation activity) was recently submitted to and accepted by the State. In addition, the City facilitates the use of federal historic tax credits in redevelopment projects and works to preserve the historic fabric of the City. All federally funded rehabilitation projects undertaken by the City undergo a Section 106 review pursuant to the National Historic Preservation Act. In 2014, all properties associated with the CHS (“CHS”) program underwent this review. With the enactment of a Programmatic Agreement between the City of Moline and the Illinois Historic Preservation Agency in 2011, Section 106 reviews were completed via a remote location by a qualified professional. In order to qualify under the terms and conditions of the Programmatic Agreement with the Illinois Historic Preservation Agency, staff has to meet the professional standards as established in the Secretary of the Interior’s Standards and Guidelines for Archaeology and Historic Preservation. Further, the Moline Preservation Commission serves as a resource to the City as outlined in the Agreement. In October 2013, the City was awarded the Richard H. Driehaus Foundation Preservation Award for the rehabilitation of Washington Square Apartments with NSP2 funds.

Table 3A below demonstrates the narrative information as described above and allows for a concise understanding of progress made towards meeting long-term goals and objectives:

(2) Affirmatively Furthering Fair Housing

The City of Moline partners with the cities of Davenport, Iowa and Rock Island, Illinois to conduct and update the Analysis of Impediments to Fair Housing Choice (“AI”). Rock Island and Davenport are neighboring CDBG entitlement communities located within the Davenport-Moline-Rock Island MSA. The AI was last updated during the 2011 – 2012 program years and it was completed with the assistance of Mullin & Lonergan Associates. The AI was adopted by the Moline City Council on October 9, 2012.

The most recent version of the City’s AI includes a summary listing of impediments in the form of a Fair Housing Action Plan specific to Moline as well as a Regional Fair Housing Action Plan for Davenport, Moline, and Rock Island. See page 208, Appendix 2, for summary of impediments.

As noted above, the City of Moline has continued to keep its AI document up to date. Related to these efforts, the City includes information on identified impediments within its Consolidated

Plan and Annual Action Plan. In turn, activities funded through or leveraged by CDBG funds are used, in part, to reduce or eliminate barriers and impediments to fair housing choice. Such activities that were implemented during the 2014 program year include the following:

- The City initiated a project with Habitat for Humanity to revitalize housing within a low-income neighborhood that also has high minority population.
- Worked with the local school district, MetroLink Transit system and the Illinois Department of Transportation to plan for and enhance mobility and accessibility to housing, education, and employment (e.g., Transportation Plan, Safe Routes to Schools workshops, etc.)
- Completed updating neighborhood development plans for three low-to-moderate income neighborhoods with a focus on housing, transportation, land use, and sustainability
- Participated in a regional effort to address local “food desert” issues for residents within a low-to-moderate income area within Moline
- City staff made referrals to social service agencies, local court system, police, Housing Authority, United Way, and Prairie State Legal Services for persons with housing, fair housing, potential discrimination, and related issues
- Conducted housing rehabilitation programs to enhance the availability of decent affordable housing for low income households through the City’s CHS Program and Single Family Owner-Occupied Rehabilitation Program, much of which occurred in “impacted areas” in terms of low-income and minority populations per the City’s Analysis of Impediments.
- Expanded the supply of local affordable housing through NSP2 new construction and rehab activities
- Conducted lead-based paint abatement activities to enhance the supply of lead-safe affordable housing units for low income households
- Provided down payment assistance for low income homebuyers
- Participated in homebuyer/homeowner counseling classes for low income persons
- Met with local financial institutions to explain and request their participation in homebuyer and rehabilitation projects for low income households
- City staff provided support services to the Moline Community Development Corporation (“MCDC”), which operated IHDA’s Hardest Hit Program for foreclosure prevention and the MCDC also initiated a housing rehabilitation program to leverage local resources and improve the supply of safe, decent housing with an emphasis on low-income neighborhoods and households
- The City continued to operate a Rental Inspection Program to help guarantee the availability of safe, decent affordable rental housing
- Sought and was awarded additional funding to update the City’s Comprehensive Plan, located within the Analysis of Impediments, for several “Impacted Areas” as defined by concentrations of minority and low-to-moderate income residents (beyond that mentioned above)
- Continued to improved the supply of decent, safe, affordable housing in low-to-moderate income neighborhoods by allocating funding for a Neighborhood and Housing Code Enforcement and Nuisance Abatement Program

- Continued to reach out to and work with organizations (e.g., Friends of Floreciente, Casa Guanajuato, and Palomares for Social Justice) representing minority population interests, especially for groups located in low-income neighborhoods
- Monitored activity and progress related to HUD's new rule for how local jurisdictions comply with the Fair Housing Act
- Continued implementation of a new local housing consortium with the City of East Moline to access HOME funds from IHDA to enhance the availability of safe, decent housing, for low-income households
- Began discussion of and planning for constructing an accessible one-floor affordable home for a low-income household with potential accessibility needs

The City of Moline’s affordable housing programs follow HUD’s requirement under Section 215 in regards to the amount of rent charged, determining eligibility, etc. Please see Table 2 on page 15 for the evaluation of providing affordable housing to renters, owners, homeless, and non-homeless special needs that meet Section 215.

Please see Other Actions on page 19 for the summary of the efforts to address worst case needs and progress in meeting the needs of persons with disabilities.

(4) Homelessness

The City of Moline addresses homelessness issues at two fundamental levels: The first level focuses on the provision of direct services or assistance to prevent homelessness from occurring for populations that are near and/or in danger of becoming homeless. The second level involves providing funding, referrals, or cooperative assistance to other area agencies that work directly with homeless persons and families.

Level I (actions to prevent homelessness)

The City addressed homeless prevention through several complimentary strategies that involved its CHS Program, which provided general home rehabilitation assistance to low-income homeowners that typically cannot afford to make necessary improvements. The CHS Emergency Program also provides assistance for emergency situations where a family may be required to leave the home for health and safety purposes if it were not for the CHS assistance provided. The City also provided housing rehabilitation assistance during PY 2014 through IHDA’s HOME Single-Family Owner-Occupied Rehabilitation (“SFOOR”) Program and the Trust Fund Homebuyer and Rehabilitation Assistance Program. Additionally, the City also funds and/or supports social service agencies that provide assistance to homeowners and renters that may be threatened with homelessness.

The City also provides programs that focus on job creation as a means to providing economic stability, which helps persons and families to maintain decent affordable housing (e.g., Economic Development Loans, TIF loans and development incentives, Façade Improvement loans, Enterprise Zone). These are important programs in helping to prevent homelessness as some of the programs’ clients may have been in danger of losing their home and becoming homeless were it not for the availability of the rehabilitation assistance provided by these programs.

Level II (actions to address the needs of the homeless)

To the extent the City concentrates its CDBG funding on housing rehabilitation for low-income households, limited resources are available to directly address the needs of homeless persons. That being said, the City does make efforts to leverage limited CDBG funds by funding other agencies that provide emergency shelter, transitional housing and related assistance to homeless persons. Not only does the City take the necessary steps to address the above, the City also provides referrals to and works cooperatively with other area agencies that provide services to homeless individuals. This would include the Northwestern Continuum of Care. Such agencies included in the Northwestern Continuum of Care and related area agencies that provide services, assistance, or shelter to address the needs of the homeless include the following:

- Salvation Army Quad Cities Family Service Center
- Project NOW Housing Services
- Quad City Red Cross
- Humility of Mary Shelter
- Valley Shelter Homes
- Vine Street Cafe
- Miriam House
- Family Resources
- Iowa East Central T.R.A.I.N.
- Friendly House
- United Neighbors Inc.
- Bethany Home
- Moline Housing Authority
- Youth Service Bureau
- Council on Community Services
- Place 2B
- Christian Family Community Services
- Rock Island Rescue Mission
- Dorothy Day Hospitality House
- St. Joseph the Worker House Association
- Winnie's Place – Churches United

In addition to the above agencies that provide assistance, services, or shelter to address the needs of the homeless as well as addressing needs of underserved low-income populations, the United Way of the Quad Cities Area operates a 2-1-1 resource program. This program provides information and referrals on matters related to childcare, food, rent, utility assistance and other health and human service needs.

(5) Other Actions

Actions taken to address obstacles to meeting undeserved needs, foster, and maintain affordable housing and affirmatively further fair housing:

The City of Moline continually works to identify:

- a. **Obstacles to underserved needs.**

While concurrently working to:

- b. **Foster and maintain affordable housing;**
- c. **Eliminate barriers to affordable housing;**
- d. **Overcome gaps in institutional structures and enhance coordination;**
- e. **Improve public housing and resident initiatives;**
- f. **Evaluate and reduce lead-based paint hazards;**
- g. **Ensure compliance with program and comprehensive planning requirements; and**
- h. **Reduce the number of persons living below the poverty level.**
- i.

Table 7 below identifies that various actions related to the items listed above.

In addition to items “a-h” noted above, the City of Moline continually works to monitor, participate, and make referrals to programs and agencies such as those identified above in the above-mentioned continuum of care, United Way 2-1-1 program, and related area agencies that serve underserved, low-income populations.

In 2012, City of Moline drafted and adopted the new Analysis of Impediments (“AI”) to Fair Housing Choice. As part of this, the following impediments were identified and the following actions were taken to reduce the affects of impediments in 2014. Please refer to the AI information found on page 13 of this document.

Table 7	
Impediment (a)	Action Taken
Predatory Lending	<ul style="list-style-type: none"> • Participated in various lender seminars and webinars (b,d,e,h)

--	--

Other actions were taken to address obstacles in meeting underserved needs, fostering and maintaining affordable housing and affirmatively furthering fair housing include numerous programs provided on a citywide basis by the City of Moline and local not-for-profit agencies. Examples of such programs are as follows:

- CHS Program/ CHS Emergency Program: An owner-occupied housing rehabilitation program designed to meet the critical housing rehabilitation needs of very low, low and moderate-income residents. Essential repairs are made to a home, which ensures a safe, decent living environment.
- Project NOW, a not-for-profit agency that works in cooperation with the City of Moline, provides Weatherization & Home Energy Assistance to home owners in the Tri-County area. These are two separate programs funded federally and by the State. The Weatherization Program was expended to the level of \$951,147.00. The Home Energy Program was expended to the level of \$5,545,109.00. The funding for the Weatherization Assistance program is to weatherize homes of low-income residents. The program increases energy efficiency, thereby relieving utility and housing cost burdens. The Home Energy Assistance Program provides financial assistance to low-income renter households with the payment of utilities.
- Technical Assistance: Staff will continue to provide homebuyer’s assistance (translation, counseling, etc.) to potential buyers. This stabilizes and increases the supply of affordable, owner-occupied housing. Also included under Technical Assistance would be activities such as the City’s Planning and Development Department providing staff support to the Moline Community Development Corporation, the Moline Historic Preservation Commission, and the Citizens Advisory Council on Urban Policy.
- Project NOW Rental Assistance Program: Provides tenant based rental assistance to qualified households for a two-year period. Priority is given to victims of domestic violence and homeless persons.
- Comprehensive Grant Program: The Moline Public Housing Authority became an entitlement entity, guaranteeing funding for 20 years. The Authority will continue to provide site improvements at the various public housing locations throughout the City. Primary beneficiaries include very-low and extremely low-income residents.

- Weatherization Assistance Program: Project NOW received funding to weatherize numerous homes in Moline and Rock Island County.
- Section 8 Vouchers & Certificate Program: The Moline Public Housing Authority will continue to administer the Section 8 Voucher and Certificate Program, which benefits extremely low-income residents in securing decent, affordable rental units.
- Home Energy Assistance Program: Project NOW will seek funds to provide financial assistance to low-income renter households with the payment of utilities.

(6) Leveraging Resources

Program Specific Match and Leverage

The City of Moline uses CDBG funds to leverage other resources when and wherever possible, and to the extent that the regulations allow. The City used CDBG funds to match the Lead Hazard Control grant, HOME funds and Trust Fund dollars through IHDA such as the SFOOR and Trust Fund Emergency Repair programs. The match includes service delivery, i.e. salaries for environmental compliance and financial activities. The rehabilitation funds from CHS Program were matched for properties that were eligible to receive LHC funding and/or HOME and Trust Fund. Under the CDBG subrecipient program, the grantees match the awarded funds with funding from their general revenue and/or funding from other grant resources, but there is no match requirement imposed by the City.

Participation in Area Housing Consortia

In addition to participating with the Northwestern Illinois Housing Consortium to access and utilize NSP2 funding for neighborhood improvement and stabilization efforts, the City of Moline has also teamed up with the City of East Moline to successfully access competitive HOME and Illinois Trust Fund resources through IHDA. The City of Moline also acts as the lead administrative entity in a regional consortium that was awarded another Healthy Homes, Lead Hazard Control grant for the mitigation and abatement of lead-based paint hazards.

Under the CDBG sub-recipient program the grantees match the awarded funds with funding from their general revenue and/or funding from other grant sources, but there is no match requirement imposed by the City.

(7) Self-Evaluation

To achieve outcomes related to the CDBG national objectives and effectuate positive change in regards to community needs as expressed through the City's Consolidated Plan, the City of Moline implements priority activities through its CDBG program. The City takes steps necessary to help solve neighborhood and community problems, striving to make progress in meeting priority needs and specific objectives that help make goals for the City a reality, to provide decent housing, suitable living environments, and to expand economic opportunities for low and moderate income persons.

Through the use of CDBG objectives, planning methodologies, and program funds, the City has undertaken activities in a comprehensive strategy to accomplish the overall goal of developing Moline as a sustainable and vibrant urban community.

Activities undertaken by the City should meet the Strategic Plan, Action Plan and/or the Consolidated Comprehensive Plan established by the Moline City Council. As projects and needs are presented to Community Development (“CD”) staff they are measured by Priority Goals to determine when and how the project will be addressed.

CD staff continues to address the expansion and enhancement of decent, affordable housing through the CHS Program(s). The CHS program has helped to stabilize neighborhoods, enhanced the economic value of the community, and assisted low income households with the preservation of affordable housing.

The City has continued to plan and implement (on its own and in conjunction with other governmental, quasi-governmental, and private sector entities) a number of projects with significant community and economic benefits within low and moderate income neighborhoods. Projects such as the new High Speed Rail service, the new Western Illinois University Quad Cities Riverfront Campus, and the Moline Enterprise Lofts (a section 42 workforce housing project) will provide new and retained jobs through construction and new business development, thus providing new job and housing opportunities for low to moderate income persons.

The Neighborhood Partnership Program continues its successful track record in creating neighborhood organizations that come together on a monthly basis to discuss and solve problems specific to their neighborhood. The groups reach out to other residents as part of their problem solving and program activities. The groups are present in the neighborhoods to deter gang and drug activity. Each eligible neighborhood receives funding to pursue projects such as preparing newsletters, paying for landscaping trees and shrubs that they plant on boulevards, and offsetting the replacement of sidewalks.

The 2014 A-133 Audit has not yet been completed as of the required submission date of this CAPER. Fieldwork and on site work by the Auditors, Baker Tilly, is done from the first of year through April. Final approval from City Council is typically not completed until June. The City will send HUD a completed and approved final audit as soon as we are able. A copy of 2013’s A-133 Audit is available upon request and should be noted that the City did not have any findings.

NOTICE
PUBLIC HEARING - Draft:
Consolidated Annual Performance and Evaluation Report to the 2014 Consolidated Action Plan for the City of Moline
The City of Moline Planning and Development Department will hold a public hearing from 4:00 - 4:30pm on Thursday, March 5, 2015 at City Hall in the Council Chambers at 619 16th Street, Moline, Illinois, 61265. The purpose of the hearing is to solicit public comment on the draft of the Consolidated Annual Performance and Evaluation Report to the 2014 (Consolidated) Action Plan for the City of Moline. This report summarizes the commitment of federal funds in support of housing, community development and the homeless during the period commencing January 1, 2014 and ending December 31, 2014. The report details the number of households and persons assisted with housing and community development funds and also identifies accomplishments made to address priority needs and defined action areas. Reports specific to the Community Development Block Grant are included in the report. The City of Moline Planning Department invites all interested parties to comment on the Performance Report during the public comment period, which commences February

ary 17, 2015 and closes March 4, 2015. Printed drafts are available on the first floor of City Hall Planning Department. Comments should be submitted to: The City of Moline Department of Planning Community Development Division 619 16th Street Moline, Illinois 61265 or via e-mail awhiting@moline.il.us. Individuals who require a special accommodation in attending the hearing should notify Annaka Whiting, Compliance Analyst, at 524-2035, at least 24 hours prior to the scheduled hearing time.

AUDIENCIA PÚBLICA -
Proyecto: Informe del Desempeño Consolidado Anual y Evaluación del Plan de Acción Consolidado 2014 Para la Ciudad de Moline
El Departamento de Planeación y Desarrollo del Municipio de Moline llevará a cabo una audiencia pública de 4:00-4:30 el Jueves, 05 de marzo 2015 en el Ayuntamiento de la Ciudad de Moline, Cámara del Consejo en el 619 de la calle 16, Moline, Illinois, 61265. El propósito de esta audiencia es para solicitar comentarios públicos sobre el propuesto Informe del Desempeño y Evaluación del Plan de Acción 2014 para la Ciudad de Moline. Este informe resume el compromiso de los fondos federales en apoyo a la vivienda, el desarrollo comunitario y las personas sin hogar durante el período del 1º de enero de 2014 al término del 31 de diciembre de 2014. En el informe se detalla el número de hogares y personas asistidas con fondos de vivienda y desarrollo comunitario y también identifica los logros realizados para atender las necesidades prioritarias y áreas de acción definidas. Informes específicos de la subvención de Bloque de Desarrollo Comunitario se incluyen en el informe. El Departamento de Planeación y Desarrollo del Municipio de Moline invita a todas las partes interesadas a presentar observaciones sobre el informe de rendimiento durante el período de comentarios públicos que comienza el 17 de febrero 2015, y se cierra el 4 de marzo de 2015. Los proyectos impresos están disponibles en el primer piso de la Ciudad de Moline en el Departamento de Planificación y Desarrollo. Los comentarios deben enviarse a: La Ciudad de Moline, Departamento de Planificación, División de Desarrollo de la Comunidad, 619 Calle 16, Moline, Illinois 61265 o por correo electrónico a awhiting@moline.il.us. Las personas que necesiten un alojamiento especial para asistir a la audiencia deben notificar a Annaka Whiting, Analista de Cumplimiento, al 309-524-2035, al menos 24 horas antes de la hora programada para la audiencia.

The notice, above, also illustrates how the City of Moline reached out to non-English-speaking residents. A majority of citizens in eligible census tracts are Spanish-speaking. The notice that was released in the local newspaper was printed in both English and Spanish to accommodate accordingly. There are two employees located in the same building as the Planning Department, who are Spanish-speaking and able to assist citizens with questions regarding the CAPER.

A draft of the CAPER was placed in the common area of the Planning and Development Department and accessible for citizen's to review. A public notice (above) was placed in the two local newspapers as well as published on the City of Moline's website. The City of Moline used IDIS for the following reports: PR03 and PR26. These reports were printed from IDIS and placed in the appropriate place in the draft for public review.

The Consolidated Plan identifies housing needs that was addressed in 2014 with the City's CHS Program and CHS Emergency Program. The Consolidated Plan identifies low-income persons as individuals who have a hard time finding affording housing, in need of repairs associated with owning a home, etc. In 2014, \$372,642.33 was allocated and set aside to assist with housing repairs and emergency needs such as water heater and furnace replacement for low-to-moderate income families in need of assistance.

All certificates of consistency were submitted when required and the City did not hinder Consolidated Plan implementation by action or willful inaction. CDBG funds were used exclusively for the national objectives outlined by HUD. The City did not encounter any instances in which one of the national objectives was not met. The City of Moline does not have approved neighborhood revitalization strategies to report on and made its last Section 108 payment in July 2012; Section 108 funds met a national objective and there are no plans to pursue any Section 108 funding in the future.

The City of Moline does not have activities that involve assistance in the form of a guarantee payment or indebtedness incurred by another party. While the City of Moline is involved with the rehabilitation and demolition of various properties through our CHS Program(s) and Neighborhood Abatement Program, there were no instances in 2014 in which any homeowner or their families were displaced as a result of CDBG assisted activities. CDBG funds were also not used for projects subject to the requirements of the Uniform Relocation ACT or Section 104(d). Timely issuance of information notices to displaced households, businesses, farms or nonprofit organizations was also not an issue for the City of Moline in 2014 due to the instances stated above.

(2) IDIS Reports

a. IDIS PR03 Report

The PR03 follows the narrative below. The report does not include any errors and all activities listed in the report are also included in the Consolidated Plan. The City did not cancel, modify, or add an activity that did not go through the citizen participation requirements. Each activity in the report has a description, indicates a national objective, and appropriate accomplishment codes.

The following activities were a result of the nationwide OIG IDIS audit, the City worked diligently with the Chicago Field Office to provide the information necessary to close these activities out. The City was notified on January 24, 2014, that supporting documentation offering proof that a National Objective was met would be required prior to the two activities being closed out. The City has asked for assistance from HUD to provide 1990 low-mod Census data so that the City’s IT Department can prepare the necessary map to provide the evidence required. The City received the information on March 6th, 2014 and these activities were closed on July 8, 2014.

1	SUPERVISED SUMMER PLAYGROUNDS	2000/35	134	21-00
2	SUPERVISED SUMMER PLAYGROUNDS	2001/24	170	21

All unliquidated funds have been accounted for on the PR26 report in regards to public service activities, as well as for administrative and planning activities. When completing an activity, the appropriate census tract, low-to-moderate area, and all necessary requirements are entered and in accordance with IDIS.

b. IDIS PR26 Report

The PR26 report is listed below this narrative. Lines 1, 29, and 39 match to the previous program year's PR26 report. At the end of the 2014 program year, the PR26 and PR01 reports were ran to reconcile the available to draw from the PR01 with Line 16 on the PR26 to ensure that total amounts were accurate and correct. Requirements are met for Lines 22, 36, and 46. Float funds do not apply to the City so there aren't any outstanding principal balances or date funds to report. Line 23 was calculated by using one year of data for consistency with the City's Action Plan.

The City of Moline has a Revolving Loan Fund. However, after much discussion and communication with the Chicago Field office, the Revolving Loan Fund will be cancelled in a substantial amendment submitted to HUD in February 2105 and the following will occur:

1. A narrative will be inserted into the City's next Action Plan stating that the City is no longer going to continue the Revolving Loan Fund that that the amount of CDBG dollars used will be moved to regular Program Income.
2. This same narrative will be inserted in next year's CAPER and also in the SF 425 report for that quarter.
3. The City will then ensure that all funds are drawn from IDIS prior to any grant disbursements as would be done with regular Program Income.

The City of Moline did not use any CDBG funds to acquire or improve land owned by the City or its sub-recipients, and therefore, no properties are listed for sale. No lump sum agreements were made by the City with CDBG funds in 2014.

As outlined in the City's Policies and Procedure's manual, assistance received through the CHS Program and the CHS Emergency Program are treated as a forgivable loan. This grant is a forgivable loan with a maximum of \$14,999 dollars within a period of 5 years from the date of final (approved) inspection. A Recapture Agreement will be recorded at the Rock Island County Recorder's Office for a period of 5 years. At the end of the fifth year, the release documents will be prepared by City staff and will be available for pick up at our office. It will be the homeowner's responsibility to record and pay the recording fee that will remove the recapture from the property.

The Owner agrees to repay to the City the Repayment Amount if one or more of the following Recapture Events occurs before the end of the recapture period:

- the Owner sells, conveys or transfers title to the Home for consideration;
- the Owner refinances the Home in a manner such that it is not a Permitted Refinancing as defined in the City's Policies and Procedures manual

In 2014, there was 1 homeowner who repaid the loan prior to the end of the 5 year period for a total of \$189.17. This amount was entered in IDIS as Program Income. Program Income was drawn prior to any grant disbursements. See PR09 on page 194.
