

McCarthy Improvement Company

-----PAVING * GRADING* HEAVY CONSTRUCTION-----

Transportation News

For Immediate Release: April 22, 2010

Contractor: McCarthy Improvement Company

Owner: State of Illinois Department of Transportation

Project: I-74 Illinois

Location of Work: West (north) and East (south) bound lanes from Illinois Route 5 (John Deere Road) to 7th Avenue Moline.

Work Description:

Area 1:

The lane closures for the following work will only be in effect from Monday morning through Friday mid-morning for approximately 6 weeks.

Starting on the 26th of April, McCarthy Improvement Company will be working on the inside (left) lane of I-74 East (south) bound and West (north) bound.

The work includes asphalt milling and resurfacing. The inside median lanes will be closed to traffic for approximately 3 weeks while open on the weekends. The work will then shift to the outside lanes for an additional 3 weeks, still open on the weekends.

Area2:

The bridge decks between 7th avenue and John Deere Road (not the main bridge over the river) will be under construction starting in mid July. That work requires concrete barrier wall which will stay up through the weekends. More detail on those closures will be given at a later time.
