

Traffic Engineering Committee *Agenda*

1:30 p.m.
Tuesday, March 1, 2016

Agenda Items

1. Approval of minutes of the Traffic Engineering Committee meeting of February 2, 2016.
2. Request for two-hour parking in front of 2401 40th Avenue.
3. Request to permit parking on 48th Street, west side, north of 12th Avenue.
4. Request to install a “no parking here to corner sign” on the north side of 23rd Avenue B at 27th Street.

Informational Items

5. Request to discuss the installation of sharrows on 34th Street, between 4th Avenue and 23rd Avenue.
6. Other

1. Approval of minutes of the Traffic Engineering Committee meeting of February 2, 2016.
-

2. Request for two-hour parking in front of 2401 40th Avenue.

Explanation: Request was tabled from the February 2016 meeting. Due to lack of nearby parking, a resident has requested that two-hour parking signs are installed at 2401 40th Avenue. The resident stated that large trucks park in front of 2401 40th Avenue for up to twelve hours. According to the Moline Code of Ordinances, vehicles cannot park on either side of 24th Street or 40th Avenue.

3. Request to permit parking on 48th Street, west side, north of 12th Avenue.

Explanation: Committee voted to deny a request to permit parking 15-20 minutes before and after school/school related activities at last month's meeting. The Committee tabled permitting parking on the west side of 48th Street, north of 12th Avenue, at all times of the day. Committee wanted to gather information pertaining to the width of 48th Street prior to making a final decision.

4. Request to install a "no parking here to corner sign" on the north side of 23rd Avenue B at 27th Street.

Explanation: Due to line-of-sight issues, resident has requested that the City installs a "no parking here to corner sign" on the north side of 23rd Avenue B. Drivers tend to park their vehicles very close to the intersection of 27th Street.

5. Request to discuss the installation of sharrows on 34th Street, between 4th Avenue and 23rd Avenue.

Explanation: Committee approved marking sharrows on 34th Street, between 4th and 23rd Avenues, at the February 2016 meeting. Engineering has found additional data that does not support marking sharrows on 34th Street.

6. Other.
