We don't want a trash facility at the air port industrial park on Indian Bluff, 78ave. Way to many Trucks on 78. All the house additions near planned facitily have 200 to 300 thousand dollar houses in beautiful neighborhoods. We pay high property taxes and don't need a trash facility in our neighborhood or hundreds of garbage trucks on narrow 78th ave. Which all use daily. We should have been informed of these plans and not by worried neighbor going door to door with information. Why are we the last to know? This affects use.

I've lived on 50th St. for the past 35 years. My taxes are high traffic on Indian Bluff Road is heavy. Do not want to see this in my front yard. Car auction is already a junkyard, eyesore!

Thank you Mary Jones

The Recycling Center center being planned is a good idea. The location that it is planned for IS NOT! Traffic on 78th avenue has increased 20 fold over the last 20 years and adding additional heavy industrial trucks on a road design for rural farm traffic will take a bad situation to a catastrophic one. The road will not hold up and the increased traffic will surely increase the risk of accidents. You can already see how 72nd & 50th streets have fallen apart since the city began using them to gain access to the farm field where it has been dumping yard waste.

It has been brought to my attention that Moline is planning to put another landfill in the neighborhood of 78th Avenue and 50th Street. I really cannot believe this is a consideration since the site is among many homes in Moline and Coal Valley. My first thought is, "are the mobile homes not valued so why not put trash in their backyard." There are many homes located up the hill of 50th Street. The traffic and smell of trash will affect the residents and their home values. Surely there is land located in an area where homes and neighborhoods are not located and a much better choice for developing a landfill. Please do not proceed with this plan.

Sincerely,  
Marilyn Ford

To the City Council, please do not support this plan for a trash facility! I live very close to where this will be. I have lived here for 44 years and am 74 years old. I do not want to move from my home. Why would anyone want to live near a dump?

Sent from my iPhone

Tell City Council not to accept the plan for new dumping site off 78th St Moline! Please and Thank you.

To whom it may concern

I am writing to let you know that I do not want or support the waste transfer station. I live up the hill from the proposed site on 47th St. I am concerned my property value is going to significantly drop if this station happens. I am also not wanting the extra traffic that is also going to happen and the fact that I will have issues getting in and out of my neighborhood. We have one way in and out which also worries me with the toxic waste that will be handled down there. What is going to happen in an emergency and we need to evacuate?

We live next to a nature preserve. I enjoy all the different kinds of wild life we have in our neighborhood. Deer, fox, wild turkey, raccoons along with other kinds. What is going to happen to it when some are going to be attracted to the facility? Kill them? Plenty will be hit and ran over by the increase in the traffic. This facility is going to have an impact on the wild life in the area. Loose garbage will be a huge problem. Animals are going to ingest it.

The Mill creek bridge is rated as very poor. With all of the tonnage and extra traffic it isn't safe to handle all of that. Also with the creek right behind the proposed site how is it not going to have run off going into it? Our neighborhood also has a well. I am now worried that it is going to be polluted because of the type of things that are going to be done at this site.

I wish to express my feelings and thought with you and that is I do not want the facility in my front yard affecting my life, my neighborhood and property values.

We oppose this trash facility, we don't want the smell and excess traffic through our neighborhood. We live on 80th Street. Contaminating Case Creek will hurt the wildlife in the area. Not to mention running the wild animals out of their habitat.

To City Clerk, Moline

From William and Diana Rasmussen

We want to go on record as opposing the proposed trash transfer station in the airport industrial park. We do not want the increased truck traffic resulting in damage to our roads. Nor do we want the odor associated with a trash facility to permeate the atmosphere. We live on 50<sup>th</sup> street up the hill from the industrial park and feel the increased truck traffic will also cause increased vehicle accidents endangering safety.

Sincerely,  
William and Diana Rasmussen
